

## **OrthoPediatrics Corp. Expands PediPlates® Franchise with Titanium System**

January 3, 2018

WARSAW, Ind., Jan. 03, 2018 (GLOBE NEWSWIRE) -- OrthoPediatrics Corp. (NASDAQ:KIDS), a company exclusively focused on advancing the field of pediatric orthopedics, is pleased to announce the launch of Titanium PediPlates®, the Company's 24<sup>th</sup> surgical system. The titanium implant system expands OrthoPediatrics' already comprehensive physseal tethering offering and includes both O-Plates and I-Plates as well as solid and cannulated low-profile screws. As a market leader in guided growth, OrthoPediatrics' PediPlates technology harnesses the power of the growth plate through a simple, minimally invasive, and reversible tethering technique.

Joe Hauser, OrthoPediatrics' Vice President of Trauma and Deformity Correction, noted that titanium PediPlates provide another correction option to pediatric orthopedic surgeons worldwide. "Adding a titanium offering to OrthoPediatrics' market leading PediPlates physseal tethering franchise expands physicians' treatment options, especially in patients who have a nickel allergy. The launch of our 24<sup>th</sup> surgical system strengthens our strategy to provide pediatric orthopedic surgeons with superior options for treating children."

### **About PediPlates®**

The PediPlates® system, which includes the I-Plate, O-Plate, and Delta Plate, provides a physseal tethering technique that does not disrupt the integrity of the physis, or growth plate. It features simple plate and screw constructs that span the growth center and restrain the physis by inhibiting growth where the plates and screws are applied. The system also features stainless steel plates and screws, which provide excellent strength, resistance to breakage, and ease of removal.

### **About OrthoPediatrics Corp.**

Founded in 2006, OrthoPediatrics is an orthopedic company focused exclusively on providing a comprehensive product offering to the pediatric orthopedic market to improve the lives of children with orthopedic conditions. OrthoPediatrics currently markets 24 surgical systems that serve three of the largest categories within the pediatric orthopedic market. This offering spans trauma & deformity, complex spine and ACL reconstruction procedures. OrthoPediatrics' global sales organization is focused exclusively on pediatric orthopedics and distributes its products in the United States and 35 countries outside the United States.
