

OrthoPediatrics Corp. Introduces PediFlex™ Advanced Surgical System

March 22, 2018

WARSAW, Ind., March 22, 2018 (GLOBE NEWSWIRE) -- OrthoPediatrics Corp. (NASDAQ:KIDS), a company exclusively focused on advancing the field of pediatric orthopedics, is pleased to announce the introduction of PediFlex™ Advanced, the Company's next generation elastic nailing platform. The upgrade to the legacy system provides a modified flexible nail implant in multiple diameters and lengths, available in both stainless steel and titanium. The platform includes an innovative new inserter design, allowing for easy assembly and interchangeable collets for multiple nail sizes. Further, PediFlex™ Advanced features enhanced instruments for nail extraction and completes the next step in the evolution of OrthoPediatrics' intramedullary nailing franchise.

Joe Hauser, OrthoPediatrics' Vice President of Trauma & Deformity Correction, stated, "We are committed to providing pediatric orthopedic surgeons with the most innovative systems to treat their patients, and flexible nailing is one of the most frequent pediatric implant procedures. The enhancements beyond the first generation PediFlex™ Nail System provide a significant advancement in pediatric fracture care. Additionally, this expansion represents OrthoPediatrics' commitment to continuous improvement of its products."

About PediFlex™ Advanced

PediFlex™ Advanced is intended for fixation of diaphyseal fractures of long bones where the medullary canal is narrow or flexibility of the implant is required. This includes upper extremity fractures in all patients and lower extremity fractures in pediatric or small stature patients. In pediatric patients, the flexibility of the nail allows it to be inserted at a point that does not disturb or disrupt the growth plate.

About OrthoPediatrics Corp.

Founded in 2006, OrthoPediatrics is an orthopedic company focused exclusively on providing a comprehensive product offering to the pediatric orthopedic market to improve the lives of children with orthopedic conditions. OrthoPediatrics currently markets 24 surgical systems that serve three of the largest categories within the pediatric orthopedic market. This offering spans trauma & deformity, scoliosis and sports medicine/other procedures. OrthoPediatrics' global sales organization is focused exclusively on pediatric orthopedics and distributes its products in the United States and 37 countries outside the United States.
