NOTE REGARDING FORWARD-LOOKING STATEMENTS

All statements, other than statements of historical facts, contained in this quarterly report, including statements regarding our business, operations and financial performance and condition, as well as our plans, objectives and expectations for our business, operations and financial performance and condition, are forward-looking statements. You can often identify forward-looking statements by words such as "anticipate," "believe," "continue," "could," "estimate," "expect," "intend," "may," "might," "target," "ongoing," "plan," "potential," "predict," "project," "should," "will" or "would," or the negative of these terms or other terms. Forward-looking statements involve known and unknown risks, uncertainties and other factors, such as the impact of the COVID-19 pandemic, that may cause our results, activity levels, performance or achievements to be materially different from the information expressed or implied by the forward-looking statements. Forward-looking statements may include, among other things, statements relating to:

- our ability to achieve or sustain profitability in the future;
- our ability to raise additional capital to fund our existing commercial operations, develop and commercialize new products and expand our operations;
- our ability to commercialize our products in development and to develop and commercialize additional products through our research and development efforts, and if we fail to do so we may be unable to compete effectively;
- our ability to generate sufficient revenue from the commercialization of our products to achieve and sustain profitability;
- our ability to comply with extensive government regulation and oversight both in the United States and abroad;
- our ability to maintain and expand our network of third-party independent sales agencies and distributors to market and distribute our products; and
- our ability to protect our intellectual property rights or if we are accused of infringing on the intellectual property rights of others;

We cannot assure you that forward-looking statements will prove to be accurate, and you are encouraged not to place undue reliance on forward-looking statements. Actual results or events could differ materially from the plans, intentions and expectations expressed or implied by the forward-looking statements. You are urged to carefully review and consider the various disclosures made by us in this quarterly report, in our Annual Report on Form 10-K filed with the Securities and Exchange Commission (the "SEC") on March 11, 2021 and in other reports filed with the SEC that discuss the risks and factors that may affect our business. Other than as required by law, we undertake no obligation to update or revise any forward-looking statements to reflect new information, events or circumstances occurring after the date of this quarterly report.

ORTHOPEDIATRICS CORP. NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

(Dollars In Thousands, Except Share and Per Share data)

NOTE 1 - BUSINESS

OrthoPediatrics Corp., a Delaware corporation, is a medical device company committed to designing, developing and marketing anatomically appropriate implants and devices for children with orthopedic conditions, giving pediatric orthopedic surgeons and caregivers the ability to treat children with technologies specifically designed to meet their needs. We sell our specialized products, including PediLoc®, PediPlates®, Cannulated Screws, PediFlex™ nail, PediNail™, PediLoc® Tibia, ACL Reconstruction System, Locking Cannulated Blade, Locking Proximal Femur, Spica Tables, RESPONSE™ Spine, BandLoc™, Pediguard, Pediatric Nailing Platform | Femur, Orthex®, QuickPack® and ApiFix® Mid-C System, to various hospitals and medical facilities throughout the United States and various international markets. We currently use a contract manufacturing model for the manufacturing of implants and related surgical instrumentation.

The Company began selling its products in the United States in 2008 and internationally in 2011. In 2017, we expanded operations and established legal entities in the United Kingdom, Australia and New Zealand, permitting us to sell under an agency model direct to local hospitals in these countries. We began selling direct to Canada in September 2018, Belgium and the Netherlands in January 2019, Italy in March 2020 and Germany, Switzerland and Austria in January 2021. Additionally, in March 2019, we established an operating company in the Netherlands in order to enhance our operations in Europe.

On June 4, 2019, we purchased all the issued and outstanding shares of stock of Vilex in Tennessee, Inc. ("Vilex") and all the issued and outstanding units of membership interests in Orthex, LLC ("Orthex") for \$60,000 in total consideration. Vilex and Orthex are primarily manufacturers of foot and ankle surgical implants, including cannulated screws, fusion devices, surgical staples and bone plates, as well as Orthex Hexapod technology which is used to treat pediatric congenital deformities and limb length discrepancies.

On December 31, 2019, we divested substantially all of the assets relating to Vilex's adult product offerings to a wholly-owned subsidiary of Squadron Capital LLC ("Squadron") in exchange for a \$25,000 reduction in a Term Note owed to Squadron in connection with the initial acquisition. As part of the sale, we also executed an exclusive license arrangement with Squadron providing for perpetual access to certain intellectual property and a mutual distribution agreement.

On March 9, 2020, we purchased all the issued and outstanding membership interest of Telos Partners, LLC ("Telos") for \$3,300 in total consideration. Telos is a boutique regulatory consulting firm formed in Colorado.

On April 1, 2020, we purchased all the issued and outstanding membership interest of ApiFix, Ltd. ("ApiFix") for (a) \$2,000 in cash, and (b) 934,783 shares of the Company's common stock, \$0.00025 par value per share, representing approximately \$35,000 (based on a closing share price of \$37.63 on April 1, 2020. ApiFix, a corporation organized under the laws of Israel, has developed a minimally invasive deformity correction system for patients with Adolescent Idiopathic Scoliosis ("ApiFix System"). In addition, we have also agreed to pay as part of the purchase price the following anniversary payments, subject to certain limitations and adjustments: (i) approximately \$13,000 on the second anniversary of the closing date, provided that such payment will be paid earlier if 150 clinical procedures using the ApiFix System are completed in the United States before such anniversary date, (ii) \$8,000 on the third anniversary of the closing date; and (iii) \$9,000 on the fourth anniversary of the closing date. In addition, to the extent that the product of our revenues from the ApiFix System for the twelve months ended June 30, 2024 multiplied by 2.25 exceeds the anniversary payments actually made for the third and fourth

years, we have agreed to pay the selling shareholders a system sales payment in the amount of such excess. The anniversary payments and system sales payment may each be made in cash or cash and common stock (refer to Note 3).

On June 10, 2020, we purchased certain intellectual property assets from Band-Lok, LLC, a North Carolina limited liability company ("Band-Lok"), related to its Tether Clamp and Implantation System ("Tether Clamp System") for approximately \$3,400 in total consideration. We use the Tether Clamp System in connection with our Bandloc 5.5/6.0 System. We were previously the sole licensee of the purchased assets under a license agreement with Band-Lok.

Our largest investor is Squadron, a private investment firm based in Granby, Connecticut.

The global COVID-19 pandemic ("COVID-19" or the "pandemic"), together with the preventative and precautionary measures taken by governments, governmental agencies, communities, businesses and hospital administrators, has impacted, and may continue to impact significant aspects of our business, including demand for our products, supply chain and distribution systems, our operations generally, and the timing for bringing new products to market. We also expect medical procedure rates to continue to vary by type and country, and could be impacted by regional COVID-19 case volumes, hospital and clinical occupancy and staffing levels, the willingness of patients to schedule elective procedures, travel and quarantine restrictions, vaccine immunization rates, and new COVID-19 variants. While COVID-19 case volumes appear to be decreasing in the U.S. and certain other countries as a result of higher vaccination rates, the global COVID-19 outlook remains uncertain as vaccination rates have slowed and the spread of new variants has accelerated. While the impact of COVID-19 has had, and may continue to have, an adverse effect on our business, results of operations, financial condition and cash flows, the nature and extent of such impact is unknown, as we cannot predict with confidence the ultimate duration or further severity of the pandemic.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying condensed consolidated financial statements include the accounts of OrthoPediatrics Corp. and its wholly-owned subsidiaries, OrthoPediatrics US Distribution Corp., OrthoPediatrics EU Limited, OrthoPediatrics AUS PTY LTD, OrthoPediatrics NZ Limited, OP EU B.V., OP Netherlands B.V., Orthex, LLC, Telos Partners, LLC and ApiFix, Ltd. (collectively, the "Company," "we," "our" or "us"). All intercompany balances and transactions have been eliminated.

Unaudited Interim Condensed Consolidated Financial Statements

We have prepared the accompanying condensed consolidated financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP"). The accompanying condensed consolidated balance sheets as of June 30, 2021 and December 31, 2020, the condensed consolidated statements of operations for the three and six months ended June 30, 2021 and 2020, the condensed consolidated statements of comprehensive loss for the three and six months ended June 30, 2021 and 2020, the condensed consolidated statements of stockholders' equity for the three and six months ended June 30, 2021 and 2020 and the condensed consolidated statements of cash flows for the six months ended June 30, 2021 and 2020 are unaudited and should be read in conjunction with the annual consolidated financial statements as of and for the year ended December 31, 2020 and related notes thereto contained in our Annual Report on Form 10-K filed with the Securities and Exchange Commission ("SEC") on March 11, 2021. The financial data and other financial information disclosed in the notes to the accompanying condensed consolidated financial statements are also unaudited. As such, certain information and footnote disclosures normally included in financial statements prepared in

accordance with GAAP have been condensed or omitted pursuant to applicable rules and regulations thereunder.

The unaudited condensed consolidated financial statements have been prepared on the same basis as the audited consolidated financial statements as of and for the year ended December 31, 2020 and, in management's opinion, include all adjustments, consisting of only normal recurring adjustments, necessary for the fair presentation of the financial statements for the interim periods. The results of operations for the three and six months ended June 30, 2021 are not necessarily indicative of the results to be expected for the full fiscal year or for any other period.

The accompanying condensed consolidated financial statements have been prepared assuming our Company will continue as a going concern. We have experienced recurring losses from operations since our inception and had an accumulated deficit of \$175,901 and \$161,766 as of June 30, 2021 and December 31, 2020, respectively. Management continues to monitor cash flows and liquidity on a regular basis. We believe that our cash balance, including short term investments, at June 30, 2021 and expected cash flows from operations for the next twelve months subsequent to the issuance of the accompanying condensed consolidated financial statements, are sufficient to enable us to maintain current and essential planned operations for more than the next twelve months.

Use of Estimates

Preparation of the condensed consolidated financial statements requires the use of estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses, as of the date of the condensed consolidated financial statements. By their nature, these judgments are subject to an inherent degree of uncertainty. The impact of the coronavirus disease ("COVID-19") has significantly increased economic and demand uncertainty. We use historical experience and other assumptions as the basis for our judgments and estimates. Because future events and their effects cannot be determined with precision, actual results could differ significantly from these estimates. Any changes in these estimates will be reflected in the condensed consolidated financial statements.

Foreign Currency Transactions

We currently bill our international stocking distributors in U.S. dollars, resulting in minimal foreign exchange transaction expense.

Beginning in the second quarter of 2017, we began selling direct within the United Kingdom, Ireland, Australia and New Zealand and billing using the local currency for each country. We began selling direct to Canada in September 2018, Belgium and the Netherlands in January 2019, Italy in March 2020 and Germany, Switzerland and Austria in January 2021. Additionally, in March 2019, we established an operating company in the Netherlands in order to enhance our operations in Europe. The financial statements of our foreign subsidiaries are accounted for in local functional currencies including and have been translated into U.S. dollars using end-of-period exchange rates for assets and liabilities and average exchange rates during each reporting period for results of operations. Local functional currencies include primarily the Pound Sterling, the Euro, Australian Dollar, Canadian Dollar and Israeli Shekel. Foreign currency translation adjustments have been recorded as a separate component of the condensed consolidated statements of comprehensive loss.

Revenue from Contracts with Customers

In accordance with ASC 606, "Revenue From Contracts With Customers (ASC 606)", revenue is recognized when a customer obtains control of promised goods or services. The amount of revenue recognized reflects the consideration to which the Company expects to be entitled to receive in exchange for these goods or services, and excludes any sales incentives or taxes collected from a customer which are subsequently remitted to government authorities.

Revenue Recognition - United States

Revenue in the United States is generated primarily from the sale of our implants and, to a much lesser extent, from the sale of our instruments. Sales in the United States are primarily to hospital accounts through independent sales agencies. We recognize revenue when our performance obligations under the terms of a contract with our customer are satisfied. This typically occurs when we transfer control of our products to the customers, generally upon implantation or when title passes upon shipment. The products are generally consigned to our independent sales agencies, and revenue is recognized when the products are used by or shipped to the hospital for surgeries on a case by case basis. On rare occasions, hospitals purchase products for their own inventory, and revenue is recognized when the products are shipped and the title and risk of loss passes to the customer. Pricing for each customer is dictated by a unique pricing agreement, which does not generally include rebates or discounts.

Revenue Recognition - International

Outside of the United States, we sell our products directly to hospitals through independent sales agencies or to independent stocking distributors. Generally, the distributors are allowed to return products, and some are thinly capitalized; however, based on a history of reliable collections, we have concluded that a contract exists and revenue should be recognized when we transfer control of our products to the customer, generally when title passes upon shipment. Additionally, based on our history of immaterial returns from international customers, we have historically estimated no reserve for returns.

The products are generally consigned to our independent sales agencies, and revenue is recognized when the products are used by or shipped to the hospital for surgeries on a case by case basis. On rare occasions, hospitals purchase products for their own inventory, and revenue is recognized when title passes upon shipment. Pricing for each customer is dictated by a unique pricing agreement.

Cash, Cash Equivalents and Short Term Investments

We maintain cash in bank deposit accounts which, at times, may exceed federally insured limits. To date, we have not experienced any loss in such accounts. We consider all highly liquid investments with original maturity of three months or less at inception to be cash equivalents. The carrying amounts reported in the balance sheets for cash are valued at cost, which approximates fair value.

The Company invests in available-for-sale short term investments. The Company has the ability, if necessary, to liquidate without penalty any of its short term investments to meet its liquidity needs in the next twelve months. As such, those investments with contractual maturities greater than one year from the date of purchase are classified as short-term on the accompanying Consolidated Balance Sheets. The company includes unrealized gains or losses in stockholders' equity. If the adjustment to fair value reflects a decline in the value of the investment, the Company considers available information to determine whether the decline is "other than temporary" and, if so, reflects the change on the Consolidated Statements of Operations.

Restricted Cash

In conjunction with the sale of the assets relating to Vilex's adult product offering to a wholly-owned subsidiary of Squadron in 2019, \$1,250 was placed into a separate escrow account to cover certain indemnification obligations. This cash is reported as restricted cash on the June 30, 2021 and December 31, 2020 condensed consolidated balance sheets. These funds will remain restricted until such time as the software ownership dispute involving IMED Surgical, LLC is resolved (see "Legal Proceedings" under Note 13 – Commitments and Contingencies for additional information). The Company also maintains restricted cash of 100 Euro at its Netherlands entity for potential Italian tenders.

Accounts Receivable and Allowance for Doubtful Accounts

Accounts receivable are uncollateralized customer obligations due under normal trade terms, generally requiring payment within 30 days from the invoice date. Account balances with invoices over 30 days past due are considered delinquent. No interest is charged on past due accounts. Payments of accounts receivable are applied to the specific invoices identified on the customer's remittance advice or, if unspecified, to the customer's account as an unapplied credit.

The carrying amount of accounts receivable is reduced by an allowance that reflects management's best estimate of the amounts that will not be collected, determined principally on the basis of historical experience, management's assessment of the collectability of specific customer accounts and the aging of the accounts receivable. All accounts or portions thereof deemed to be uncollectible or to require an excessive collection cost are written off to the allowance for doubtful accounts.

Fair Value of Financial Instruments

The accounting standards related to fair value measurements define fair value and provide a consistent framework for measuring fair value under the authoritative literature. Valuation techniques are based on observable and unobservable inputs. Observable inputs reflect readily obtainable data from independent sources, while unobservable inputs reflect market assumptions. This guidance only applies when other standards require or permit the fair value measurement of assets and liabilities. The guidance does not expand the use of fair value measurements. A fair value hierarchy was established, which prioritizes the inputs used in measuring fair value into three broad levels.

- Level 1 Quoted prices in active markets for identical assets or liabilities;
- Level 2 Observable market-based inputs or unobservable inputs that are corroborated by market data; and

Level 3 – Significant unobservable inputs that are not corroborated by market data. Generally, these fair value measures are model-based valuation techniques such as discounted cash flows, and are based on the best information available, including our own data.

The Company's financial instruments include cash and cash equivalents, short-term investments, accounts receivable, accounts payable, acquisition installment payables, contingent consideration and long-term debt. The carrying amounts of accounts receivable, accounts payable, acquisition installment payables and long-term debt approximate the fair value due to the short-term nature or market rates of these instruments. The company bases the fair value of short-term investments on quoted market prices for identical or comparable assets. Contingent consideration represents the system sales payment the Company is obligated to make. The fair value of the contingent consideration payment is considered a level 3 fair value measurement and was determined with the assistance of an independent valuation specialist at the original issuance date and as of the balance sheet date. See Note 5 for further discussion of financial instruments that carried a fair value on a recurring and nonrecurring basis.

Inventories, net

Inventories are stated at the lower of cost or net realizable value, with cost determined using the first-in-first-out method. Inventories purchased from third parties, which consist of implants and instruments held in our warehouse or with third-party independent sales agencies or distributors, are considered finished goods.

We evaluate the carrying value of our inventories in relation to the estimated forecast of product demand, which takes into consideration the life cycle of the product. A significant decrease in demand could result

in an increase in the amount of excess inventory on hand, which could lead to additional charges for excess and obsolete inventory.

The need to maintain substantial levels of inventory impacts our estimates for excess and obsolete inventory. Each of our implant systems are designed to include implantable products that come in different sizes and shapes to accommodate the surgeon's needs. Typically, a small number of the set components are used in each surgical procedure. Certain components within each set may become obsolete before other components based on the usage patterns. We adjust inventory values, as needed, to reflect these usage patterns and life cycle.

In addition, we continue to introduce new products, which may require us to take additional charges for excess and obsolete inventory in the future.

Property and Equipment, net

Property and equipment are carried at cost less accumulated depreciation. Depreciation is computed using the straight-line method over the estimated useful life of the assets. When assets are retired or otherwise disposed of, costs and related accumulated depreciation are removed from the accounts, and any resulting gain or loss is recognized in operations for the period. Maintenance and repairs that prolong or extend the useful life are capitalized, whereas standard maintenance, replacements, and repair costs are expensed as incurred.

Instruments are hand-held devices, specifically designed for use with our implants and are used by surgeons during surgery. Instruments deployed within the United States, United Kingdom, Australia, New Zealand, Canada, Belgium, the Netherlands, Italy, Germany, Switzerland and Austria are carried at cost less accumulated depreciation and are recorded in property and equipment, net on the condensed consolidated balance sheets.

Sample inventory consists of our implants and instruments, and is maintained to market and promote our products. Sample inventory is carried at cost less accumulated depreciation.

Depreciable lives are generally as follows:

1 9 7	
Building and building improvements	25 to 30 years
Furniture and fixtures	5 to 7 years
Computer equipment	3 to 5 years
Business software	3 years
Office and other equipment	5 to 7 years
Instruments	5 years
Sample inventory	2 years

Amortizable Intangible Assets, net

Amortizable intangible assets include fees necessary to secure various patents and licenses, including Band-Lok, the value of internally developed software, customer relationships, and non-competition agreements related to the acquisition of Orthex, and customer relationships and non-competition agreements related to the acquisitions of Telos and ApiFix. Amortization is calculated on a straight-line basis over the estimated useful life of the asset. Amortization for patents and licenses commences at the time of patent approval and market launch, respectively. Amortization for assets acquired commences upon acquisition. Intangible assets are amortized over a 3 to 20 year period.

Amortizable intangible assets are assessed for impairment annually or whenever events or changes in circumstances indicate that the carrying value of an asset may not be recoverable. Recoverability is

measured by a comparison of the carrying amount to future net undiscounted cash flows expected to be generated by the associated asset. If such assets are determined to be impaired, the impairment to be recognized is measured by the amount by which the carrying amount exceeds the fair market value of the assets. No impairment charges were recorded in any of the periods presented.

Goodwill and Other Intangible Assets

Our goodwill represents the excess of the cost over the fair value of net assets acquired. The determination of the value of goodwill and intangible assets arising from acquisitions requires extensive use of accounting estimates and judgments to allocate the purchase price to the fair value of net tangible and intangible assets acquired. Goodwill is not amortized and is assessed for impairment using fair value measurement techniques on an annual basis or more frequently if facts and circumstances warrant such a review. The goodwill is considered to be impaired if we determine that the carrying value of the reporting unit exceeds its respective fair value.

We have indefinite lived tradename assets that are reviewed for impairment annually in the fourth quarter or whenever events or changes in circumstances indicate that the carrying value of an asset may not be recoverable. Recoverability is measured by a comparison of the carrying amount to future net undiscounted cash flows expected to be generated by the associated asset. If such assets are determined to be impairment to be recognized is measured by the amount by which the carrying amount exceeds the fair market value of the assets. No impairment charges were recorded in any of the periods presented.

Acquisition Payable and Contingent Consideration

Upon the completion of an acquisition, the Company may record an acquisition installment payable, contingent consideration or both. Acquisition installment payables, which are fixed future payments, are recorded at their net present value, and contingent consideration is recorded at fair value as determined by management with the assistance of an independent valuation specialist at the original issuance date and is marked to fair value on a recurring basis. Accretion of interest expense attributable to the acquisition installment payable is recorded as a component of interest expense, net. Changes in the fair value of the contingent consideration are included in fair value adjustments of contingent consideration on the condensed consolidated statement of operations. The amount of expense recorded in interest expense, net for the three and six months ended June 30, 2021 were \$569 and \$1,212, respectively, and \$886 for each of the three and six months ended June 30, 2020. The fair value adjustments of contingent consideration for the three and six months ended June 30, 2021 were \$990 and \$5,140, respectively, and \$910 for each of the three and six months ended June 30, 2020.

Cost of Revenue

Cost of revenue consists primarily of products purchased from third-party suppliers, excess and obsolete inventory adjustments, inbound freight, and royalties. Our implants and instruments are manufactured to our specifications by third-party suppliers who meet our manufacturer qualifications standards. Our third-party manufacturers are required to meet the standards of the Food and Drug Administration (the "FDA"), and the International Organization for Standardization, as well as other country-specific quality standards. The majority of our implants and instruments are produced in the United States.

Sales and Marketing Expenses

Sales and marketing expenses primarily consist of commissions to our domestic and select international independent sales agencies and consignment distributors, as well as compensation, commissions, benefits and other related costs for personnel we employ. Commissions and bonuses are generally based on a percentage of sales. Our international independent stocking distributors purchase instrument sets

and replenishment stock for resale, and we do not pay commissions or any other sales related costs for international sales to distributors.

Advertising Costs

Advertising costs consist primarily of print advertising, trade shows, and other related expenses. Advertising costs are expensed as incurred and are recorded as a component of sales and marketing expense.

Research and Development Costs

Research and development costs are expensed as incurred. Our research and development expenses primarily consist of costs associated with engineering, product development, consulting services, outside prototyping services, outside research activities, materials, development and protection of our intellectual property portfolio, as well as other costs associated with development of our products. Research and development costs also include related personnel and consultants' compensation expense.

Stock-Based Compensation

Prior to our Initial Public Offering ("IPO") in October 2017, we maintained an Amended and Restated 2007 Equity Incentive Plan (the "2007 Plan") that provided for grants of options and restricted stock to employees, directors and associated third-party representatives of the Company as determined by the Board of Directors. The 2007 Plan had authorized 1,585,000 shares for award.

Immediately prior to our IPO, we adopted our 2017 Incentive Award Plan (the "2017 Plan") which replaced the 2007 Plan. The 2017 Plan provides for grants of options and restricted stock to officers, employees, consultants or directors of our Company. The 2017 Plan has authorized 1,789,647 shares for award.

Options holders, upon vesting, may purchase common stock at the exercise price, which is the estimated fair value of our common stock on the date of grant. Option grants generally vest immediately or over three years. No stock options were granted in any of the periods presented.

Restricted stock may not be transferred prior to the expiration of the restricted period, which is typically three years. The restricted stock that had been granted under the 2007 Plan had restriction periods that generally lasted until the earlier of six years from the date of grant, or an IPO or change in control, as defined in the 2007 Plan. All restricted stock granted prior to May 2014 vested upon our IPO and the remaining grants under the 2007 Plan vested six months after the IPO. We recognize the reversal of stock compensation expense when a restricted stock forfeiture occurs as opposed to estimating future forfeitures.

We record the fair value of restricted stock at the grant date. Stock-based compensation is recognized ratably over the requisite service period, which is generally the restriction period for restricted stock.

Litigation and Contingencies

Accruals for litigation and contingencies are reflected in the condensed consolidated financial statements based on management's assessment, including advice of legal counsel, of the expected outcome of litigation or other dispute resolution proceedings and/or the expected resolution of contingencies. Liabilities for estimated losses are accrued if the potential loss from any claim or legal proceeding is considered probable and the amount can be reasonably estimated. Significant judgment is required in both the determination of probability of loss and the determination as to whether the amount is reasonably estimable. Accruals are based only on information available at the time of the assessment due to the uncertain nature of such matters. As additional information becomes available, management reassesses

potential liabilities related to pending claims and litigation and may revise its previous estimates, which could materially affect the Company's results of operations in a given period.

Comprehensive Income (Loss)

Comprehensive income (loss) is defined as the change in equity during a period from transactions and other events and circumstances from non-owner sources. Comprehensive income (loss) includes foreign currency translation adjustments and unrealized gain (loss) on our short term investments.

Income Taxes

We account for income taxes under the asset and liability method, which requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been included in the condensed consolidated financial statements. Under this method, we determine deferred tax assets and liabilities on the basis of the differences between the financial statement and tax bases of assets and liabilities by using enacted tax rates in effect for the year in which the differences are expected to reverse. The effect of a change in tax rates on deferred tax assets and liabilities is recognized in income in the period that includes the enactment date.

We recognize deferred tax assets to the extent that we believe that these assets are more likely than not to be realized. In making such a determination, we consider all available positive and negative evidence. If we determine that we would be able to realize our deferred tax assets in the future in excess of their net recorded amount, we would make an adjustment to the valuation allowance.

We record uncertain tax positions on the bases of a two-step process in which (i) we determine whether it is more likely than not that the tax positions will be sustained on the basis of the technical merits of the positions and (ii) for those tax positions that meet the more-likely-than-not recognition threshold, we recognize the largest amount of tax benefit that is more than 50% likely to be realized upon ultimate settlement with the related tax authority.

"Emerging Growth Company" and "Smaller Reporting Company" Reporting Requirements

We qualify as an "emerging growth company" as defined in the JOBS Act. For as long as a company is deemed to be an emerging growth company, it may take advantage of specified reduced reporting and other regulatory requirements that are generally unavailable to other public companies. Among other things, we are not required to provide an auditor attestation report on the assessment of the internal control over financial reporting under Section 404(b) of the Sarbanes-Oxley Act of 2002. We will be able to take advantage of these reduced requirements until December 31, 2022, the date on which we will no longer qualify as an emerging growth company.

Section 107 of the JOBS Act also provides that an emerging growth company can delay the adoption of certain accounting standards until those standards would otherwise apply to private companies. We have irrevocably elected not to avail ourselves of this exemption from new or revised accounting standards and, therefore, we are subject to the same new or revised accounting standards as other public companies that are not emerging growth companies.

We also qualify as a "smaller reporting company," as such term is defined in Rule 12b-2 under the Exchange Act. To the extent that we continue to qualify as a smaller reporting company, after we cease to qualify as an emerging growth company, certain of the exemptions available to us as an emerging growth company may continue to be available to us as a smaller reporting company.

Recent Accounting Pronouncements

In May 2021, the FASB issued ASU No. 2021-04 "Earnings Per Share (Topic 260), Debt-Modifications and Extinguishments (Subtopic 470-50), Compensation-Stock Compensation (Topic 718), and Derivatives and Hedging-Contracts in Entity's Own Equity (Subtopic 815-40): Issuer's Accounting for Certain Modifications or Exchanges of Freestanding Equity-Classified Written Call Options (a consensus of the FASB Emerging Issues Task Force)". This ASU is intended to clarify and reduce diversity in an issuer's accounting for modifications or exchanges of freestanding equity-classified written call options (for example, warrants) that remain equity classified after modification or exchange. The guidance clarifies whether an issuer should account for a modification or an exchange of a freestanding equity-classified written call option that remains equity classified after modification or exchange as (1) an adjustment to equity and, if so, the related earnings per share effects, if any, or (2) an expense and, if so, the manner and pattern of recognition. The amendments in this ASU affect all entities that issue freestanding written call options that are classified in equity. The amendments do not apply to modifications or exchanges of financial instruments that are within the scope of another Topic and do not affect a holder's accounting for freestanding call options. The amendments in this ASU are effective for all entities for fiscal years beginning after December 15, 2021, including interim periods within those fiscal years. An entity should apply the amendments prospectively to modifications or exchanges occurring on or after the effective date of the amendments. Early adoption is permitted for all entities, including adoption in an interim period. The Company is currently evaluating the impact of adopting ASU 2021-04 on its consolidated financial statements.

In June 2016, the FASB issued ASU No. 2016-13 "Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments". The ASU is intended to improve financial reporting by requiring timelier recording of credit losses on loans and other financial instruments held by financial institutions and other organizations. The ASU requires the measurement of all expected credit losses for financials assets including trade receivables held at the reporting date based on historical experience, current conditions, and reasonable and supportable forecasts. Financial institutions and other organizations will now use forward-looking information to better inform their credit loss estimates. Based on ASU 2019-10 and our status as a smaller reporting company, the Company will adopt ASU 2016-13 effective January 1, 2023. The adoption of this guidance is not expected to have a significant impact on the Company's consolidated financial statements and related disclosures.

NOTE 3 - BUSINESS COMBINATION

ApiFix

On April 1, 2020, the Company purchased all the issued and outstanding membership interest of ApiFix for \$2,000 in cash, including \$344 of cash acquired, 934,783 shares of the Company's common stock, \$0.00025 par value per share, representing approximately \$35,176 (based on a closing share price of \$37.63 on April 1, 2020), approximately \$30,000 in anniversary payments, and approximately \$41,741 in a system sales payment. The total consideration transferred of \$87,379, as calculated after discounting future payments to present value, is final. ApiFix, a corporation organized under the laws of Israel, has developed a minimally invasive deformity correction system for patients with Adolescent Idiopathic Scoliosis ("ApiFix System"). The following table reconciles the total consideration transferred after

discounting the future payments:

	Consideration	Present Value
Cash consideration	\$ 2,000	\$ 2,000
Payment of ApiFix transaction related costs	67	67
Issuance of common stock	35,176	35,176
Anniversary Payments	30,000	22,620
System sales payment	 41,741	 27,190
Total consideration transferred	\$ 108,984	\$ 87,053

The purchase price allocation set forth herein is final.

The following table summarizes the total consideration paid for ApiFix and allocation of purchase price to the estimated fair value of the assets acquired and liabilities assumed at the acquisition date (in thousands):

Description	Amount
Fair value of estimated total acquisition consideration	\$ 87,379
Assets	
Cash	344
Accounts receivable-trade	245
Inventories	685
Prepaid expenses and other current assets	77
Property and equipment	153
Intangible assets	32,150
Other intangible assets	8,640
Operating lease right-of-use asset	104
Total assets	42,398
Liabilities	
Accounts payable and accrued liabilities	226
Operating lease liabilities	106
Other current liabilities	270
Deferred income taxes	6,487
Total liabilities	 7,089
Less: total net assets	35,309
Goodwill	\$ 52,070

The fair value of identifiable intangible assets were based on valuations using a combination of the income and cost approach. The estimated fair value and useful life of identifiable intangible assets are as follows:

	Amount	Remaining Economic Useful Life
Trademarks / Names	\$ 8,640	Indefinite
Patents	31,720	15 years
Customer Relationships	230	10 years
Non-competition Agreements	200	4 years
	\$ 40,790	

The Company is obligated to make anniversary payments of: (i) approximately \$13,000 on the second anniversary of the closing date, provided that such payment will be paid earlier if 150 clinical procedures using the ApiFix System are completed in the United States before such anniversary date, (ii) \$8,000 on the third anniversary of the closing date; and (iii) \$9,000 on the fourth anniversary of the closing date, subject to adjustments. The Company anticipates making the second anniversary payment of \$13,000 during the second half of 2021. In addition, to the extent that the product of our revenues from the ApiFix System for the twelve months ended June 30, 2024 multiplied by 2.25 exceeds the anniversary payments actually made for the third and fourth years, we have agreed to pay the selling shareholders a system sales payment in the amount of such excess. The anniversary payments and system sales payment may each be made in cash or cash and common stock, subject to certain limitations; provided that the Company makes the determination with respect to anniversary payment, if any.

The fair value of the contingent consideration payments is considered a Level 3 investment and were determined by an independent valuation specialist at the original issuance date using an option pricing model and a Monte Carlo simulation based on forecast annual revenue, expected volatility and an implied probability of achieving revenue forecasts. The fair value of the payment will continue to be adjusted as additional information becomes available regarding the progress toward achievement of the revenue forecast.

Presented below is a summary of the present value of the anniversary payments and system sales payment related to the ApiFix acquisition:

	April 1, 2020	December 31, 2020			June 30, 2021
Anniversary Payments:					
Second Year Payment	\$ 10,980	\$	12,233	\$	12,683
Third Year Payment	5,780		6,335		6,705
Fourth Year Payment	5,860		6,449		6,841
Total acquisition installment payable	22,620		25,017		26,229
Less: current portion of acquisition installment payable	10,980		12,233		12,683
Acquisition installment payable, net of current portion	11,640		12,784		13,546
System sales payment	27,190		30,710		35,850
ApiFix future consideration, net of current portion	\$ 38,830	\$	43,494	\$	49,396

Pre-acquisition revenues and earnings for ApiFix were not material to the condensed consolidated operations.

NOTE 4 - GOODWILL AND INTANGIBLE ASSETS

Goodwill

Changes in the carrying amount of goodwill for the six months ended June 30, 2021 were as follows:

	Iotal
Goodwill at January 1, 2021	\$ 70,511
Foreign currency translation impact	(855)
Goodwill at June 30, 2021	\$ 69,656

Intangible Assets

As of June 30, 2021, the balances of amortizable intangible assets were as follows:

	Weighted-Average Amortization Period	Gross Intangible Assets	Accumulated Amortization	Net Intangible Assets
Patents	14.2 years	\$ 42,837	\$ (4,043)	\$ 38,794
Intellectual Property	9.9 years	8,981	(1,070)	7,911
License Agreements	5.9 years	5,623	(1,776)	3,847
Total amortizable assets		\$ 57,441	\$ (6,889)	\$ 50,552

As of December 31, 2020, the balances of amortizable intangible assets were as follows:

	Weighted-Average Amortization Period	Gross Intangible Assets		Accumulated Amortization	Net Intangible Assets
Patents	14.7 years	\$ 43,363	\$	(2,650)	\$ 40,713
Intellectual Property	10.3 years	8,990		(744)	8,246
License Agreements	2.7 years	2,765		(1,440)	1,325
Total amortizable assets		\$ 55,118	\$	(4,834)	\$ 50,284

On March 19, 2021, we recorded a license agreement in the amount of \$2,858 in settlement of the Barry legal matter.

On June 10, 2020, we purchased certain intellectual property assets from Band-Lok, LLC, a North Carolina limited liability company ("Band-Lok"), related to its Tether Clamp and Implantation System ("Tether Clamp System") for \$3,394 in total consideration. We use the Tether Clamp System in connection with our Bandloc 5.5/6.0 System. We were previously the sole licensee of the purchased assets under a license agreement with Band-Lok.

Licenses are tied to product launches and do not begin amortizing until the product is launched to the market.

Trademarks are non-amortizing intangible assets which were \$13,817 and \$13,961 as of June 30, 2021 and December 31, 2020, respectively. Concurrently with our acquisition of each company, we acquired the trademark of Telos on March 9, 2020 valued at \$210 and the trademark of ApiFix on April 1, 2020 valued at \$8,640. Trademarks are recorded in Other Intangible assets on the condensed consolidated balance sheets.

NOTE 5 - FAIR VALUE OF FINANCIAL INSTRUMENTS

The Company measures certain financial assets and liabilities at fair value. The accounting standards related to fair value measurements define fair value and provide a consistent framework for measuring fair value under the authoritative literature. A fair value hierarchy was established, which prioritizes the inputs used in measuring fair value into three broad levels.

Level 1 – Quoted prices in active markets for identical assets or liabilities;

Level 2 - Observable market-based inputs or unobservable inputs that are corroborated by market data; and

Level 3 – Significant unobservable inputs that are not corroborated by market data. Generally, these fair value measures are model-based valuation techniques such as discounted cash flows, and are based on the best information available, including our own data.

The following table summarize the assets and liabilities measured at fair value on a recurring basis as of June 30, 2021 and December 31, 2020.

	June 30, 2021											
		Level 1		Level 2		Level 3		Total				
Financial Assets												
Cash Equivalents	\$	2,007	\$	_	\$	_	\$	2,007				
Short term investments												
Exchange Trade Mutual Funds	\$	35,326	\$	_	\$	_	\$	35,326				
Corporate Bonds	\$	10,448	\$	_	\$	_	\$	10,448				
Treasury Bonds	\$	4,991	\$	_	\$	_	\$	4,991				
Other	\$	4,523	\$	_	\$	_	\$	4,523				
<u>Financial Liabilities</u>												
Contingent Consideration	\$	_	\$	_	\$	35,850	\$	35,850				
	December 31, 2020											
		Level 1		Level 2	1 31	Level 3		Total				
Financial Assets		Level 1	_	Level 2	_	Level 3		TOTAL				
Cash Equivalents	\$	15,002	\$	_	\$	_	\$	15,002				
Short term investments	•	20,002	Ť		Ť		Ť	20,002				
Exchange Trade Mutual Funds	\$	35,208	\$	_	\$	_	\$	35,208				
Corporate Bonds	\$	9,616	\$	_	\$	_	\$	9,616				
Treasury Bonds	\$	6,520	\$	_	\$	_	\$	6,520				
Other	\$	3,797	\$	_	\$	_	\$	3,797				
Financial Liabilities												
Contingent Consideration	\$	_	\$	_	\$	30,710		30,710				

The Company's level 1 assets consist of cash equivalents which are generally comprised of short-term, liquid investments with original maturity of three months or less at inception and other short term investments which are comprised of exchange traded mutual funds and marketable securities with a maturity date greater than 3 months.

The Company's Level 3 instruments consist of contingent consideration. The fair value of contingent consideration liabilities assumed in business combinations is recorded as part of the purchase price consideration of the acquisition and is determined using a discounted cash flow model or probability simulation model. The significant inputs of such models are not always observable in the market, such as certain financial metric growth rates, volatility rates, projections associated with the applicable milestone, the interest rate, and the related probabilities and payment structure in the contingent consideration arrangement. The adjustments in the fair value of the contingent consideration payments of \$990 and \$5,140 were recognized as expense for the three and six month periods ended June 30, 2021, respectively, in other expenses on the condensed consolidated statements of operations. Additionally, \$569 and \$1,212 was recognized as interest expense for the three and six month periods ended June 30, 2021, respectively, on the condensed consolidated statements of operations for the accretion of the acquisition installment payable.

The following table summarizes the change in fair value of Level 3 instruments in 2021:

Total
30,710
5,140
35,850

The recurring Level 3 fair value measurements of contingent consideration liabilities associated with commercial sales milestones include the following significant unobservable inputs as of June 30, 2021 and December 31, 2020:

	June 30, 2021	December 31, 2020		
Valuation techniques	Discounted cash flow, Monte Carlo			
Present value discount rate ⁽¹⁾	25.5 %	25.8 %		
Volatility factor	53.3 %	51.8 %		
Expected years	2.9 years	3.5 years		

(1) The present value discount rate includes estimated risk premium.

The estimated fair value reflects assumptions made by management as of June 30, 2021; however, the actual amount ultimately paid could be higher or lower than the fair value of the remaining contingent consideration.

NOTE 6 - DEBT AND CREDIT ARRANGEMENTS

Long-term debt consisted of the following:

	June 30, 2	2021	Dec	ember 31, 2020
Mortgage payable to affiliate	\$	1,111	\$	1,175
Less: current maturities		134		131
Long-term debt with affiliate, net of current maturities	\$	977	\$	1,044

On December 31, 2017, we entered into a Fourth Amended and Restated Loan and Security Agreement, or the Loan Agreement, with Squadron Capital LLC, or Squadron. Pursuant to the Loan Agreement, which has been amended by a First Amendment dated as of June 4, 2019 and a Second Amendment date as of August 4, 2020 (as so amended, the "Second Amendment Loan Agreement"), Squadron is providing the Company a revolving credit facility in the amount of \$25,000. Borrowings under the revolving credit facility are to be made under a First Amended and Restated Revolving Note, dated August 4, 2020 (the "Amended Revolving Note"), payable, jointly and severally, by the Company and each of its subsidiaries

party thereto. The Amended Revolving Note will mature at the earlier of: (i) the date on which any person or persons acquire (x) capital stock of the Company possessing the voting power to elect a majority of the Company's Board of Directors (whether by merger, consolidation, reorganization, combination, sale or transfer), or (y) all or substantially all of the Company's assets, determined on a consolidated basis; and (ii) January 1, 2024. The Second Amended Loan Agreement provides for interest only payments, which are payable monthly, with an interest rate equal to the greater of (a) three month LIBOR plus 8.61%, and (b) 10.00%.

On January 4, 2020, the Company repaid Squadron \$5,000 outstanding under the revolving credit facility in effect at that time and, on July 15, 2020 the Company repaid the \$20,000 Term Note A outstanding under the Loan Agreement, together with all unpaid interest and other related amounts payable. The Company does not currently have any borrowings outstanding under the Second Amended Loan Agreement.

The Company has agreed to pay Squadron an unused commitment fee in an amount equal to the per annum rate of 0.50% (computed on the basis of a year of 360 days and the actual number of days elapsed) times the daily unused portion of the revolving credit commitment. The unused commitment fee is payable quarterly in arrears and is recorded in interest, net. For the three and six months ended June 30, 2021 the unused commitment fee paid to Squadron was \$32 and \$63, respectively.

Borrowings under the Second Amended Loan Agreement are secured by substantially all of the Company's assets and are unconditionally guaranteed by each of its subsidiaries with the exception of Vilex. There are no traditional financial covenants associated with the Second Amended Loan Agreement. However, there are negative covenants that prohibit us from, among other things, transferring any of our material assets, merging with or acquiring another entity, entering into a transaction that would result in a change of control, incurring additional indebtedness, creating any lien on our property, making investments in third parties and redeeming stock or paying dividends.

In connection with the purchase of our office and warehouse space in Warsaw, Indiana in August 2013, we entered into a mortgage note payable to Tawani Enterprises Inc., an affiliate of Squadron. Pursuant to the terms of the mortgage note, we pay Tawani Enterprises Inc. monthly principal and interest installments of \$16 with interest compounded at 5% until maturity in 2028, at which time a final payment of remaining principal and interest is due. The mortgage is secured by the related real estate and building. As of December 31, 2020, the mortgage balance was \$1,175 of which current principal due of \$131 was included in the current portion of long-term debt. At June 30, 2021 the mortgage balance was \$1,111 of which current principal of \$134 was included in the current portion of long-term debt.

The aggregate interest expense relating to the notes payable to Squadron and the mortgage note payable to Tawani was \$14 and \$513 for the three months ended June 30, 2021 and 2020, respectively, and \$29 and \$892 for the six months ended June 30, 2021 and 2020, respectively.

NOTE 7 - INCOME TAXES

The Company utilizes an estimated annual effective tax rate to determine its provision or benefit for income taxes for interim periods. The income tax provision or benefit is computed by multiplying the estimated annual effective tax rate by the year-to-date pre-tax book income (loss).

For the six months ended June 30, 2021, the income tax benefit was \$598 compared to \$0 for the six months ended June 30, 2020. Our effective income tax rate was 4.0% and 0% for the three months ended June 30, 2021 and 2020, respectively. Our effective tax rate increased compared to the prior year primarily due to the acquisition of ApiFix in 2020 and the deferred tax liability recorded in the purchase accounting. The deferred tax liability was set up as a result of the amortizing intangible assets recorded in the purchase accounting which generate nondeductible book amortization.

In response to the COVID-19 pandemic, the Coronavirus Aid, Relief and Economic Security Act ("CARES Act") was signed into law in March 2020. The CARES Act lifts certain deduction limitations originally imposed by the Tax Cuts and Jobs Act of 2017 ("2017 Tax Act"). The enactment of the CARES Act did not result in any material adjustments to our income tax provision for the three or six months ended June 30, 2021.

On December 27, 2020 the Consolidated Appropriations Act, 2021 ("CAA") was signed into law. The CAA included the COVID-related Tax Relief Act of 2020 ("COVID TRA"), which expanded, extended, and clarified selected CARES Act provisions, specifically on Paycheck Protection Program (PPP) loan and Employee Retention Tax Credit, 100% deductibility of business meals purchased from restaurants as well as other tax extenders. The Consolidated Appropriations Act did not have a material impact on the Company's income tax provision.

The deferred tax assets were fully offset by a valuation allowance at June 30, 2021 and December 31, 2020, with the exception of certain deferred tax liabilities recognized in a foreign jurisdiction as a result of fair value adjustments recorded upon the acquisition of ApiFix. The company has recorded a tax benefit during the period ended June 30, 2021 for losses generated in the foreign jurisdiction. As of December 31, 2020, we had available federal, state and foreign tax loss carryforwards of \$98,918, \$68,901 and \$16,905, respectively. We had available federal tax credits of \$176. Net operating losses generated prior to December 31, 2017 will begin to expire in 2028. Federal net operating losses generated after January 1, 2018 will have an indefinite carryforward period. An ownership change under Section 382 of the Internal Revenue Code was deemed to occur on May 30, 2014. Given the limitation calculation, we anticipate approximately \$16,200 in losses generated prior to the ownership change date will be subject to potential limitation. The estimated annual limitation is \$1,062. A second ownership change under Section 382 was deemed to occur on December 11, 2018. The estimated annual limitation is \$9,736, which is increased by \$22,430 annually over the first five years as a result of an unrealized built in gain. NOLs sustained prior to May 30, 2014 will still be constrained by the lower limitation.

Management assesses the available positive and negative evidence to estimate whether sufficient future taxable income will be generated to permit use of the existing deferred tax assets. A significant piece of objective negative evidence evaluated was the cumulative loss incurred over the three-year period ended June 30, 2021. Such objective evidence limits the ability to consider other subjective evidence, such as our projections for future growth.

NOTE 8 - STOCKHOLDERS' EQUITY

Stock Options

The fair value for options granted at the time of issuance were estimated at the date of grant using a Black-Scholes options pricing model. Significant assumptions included in the option value model include the fair value of our common stock at the grant date, weighted average volatility, risk-free interest rate, dividend yield and the forfeiture rate. There were no stock options granted in any of the periods presented.

Our stock option activity and related information are summarized as follows:

	Options	Weighted-Average ns Exercise Price		Contractual Terms (in Years)
Outstanding at January 1, 2021	12,802	\$	30.97	1.6
Exercised	(2,010)		30.97	
Outstanding at June 30, 2021	10,792	\$	30.97	1.4

Options generally include a time-based vesting schedule permitting the options to vest ratably over three years. At June 30, 2021 and December 31, 2020, all options were fully vested.

There was no stock-based compensation expense on stock options for the three and six months ended June 30, 2021 and 2020, respectively.

Restricted Stock

Our restricted stock activity and related information are summarized as follows:

		Weighted-Average
		Remaining
	Restricted	Contractual Terms
	Stock	(in Years)
Outstanding at January 1, 2021	436,730	1.1
Granted	110,137	
Forfeited	(2,394)	
Vested	(162,816)	
Outstanding at June 30, 2021	381,657	1.6
Postrioted stock exercise bloom June 20, 2021		

At June 30, 2021, there was \$9,974 of unrecognized compensation expense remaining related to our service-based restricted stock awards. The unrecognized compensation cost was expected to be recognized over a weighted-average period of 1.6 years or earlier upon an elimination of the restriction period as a result of a change in control event.

Stock-based compensation expense on restricted stock amounted to \$1,415 and \$2,495 for the three months ended June 30, 2021 and 2020, respectively, and \$2,731 and \$3,453 for the six months ended June 30, 2021 and 2020, respectively. The decrease in the stock compensation expense for the three and six months ended June 30, 2021 was due primarily to one-time grants related to management transition plans that did not repeat in the current year.

NOTE 9 - NET LOSS PER SHARE

The following is a reconciliation of basic and diluted net loss per share:

	Three Months Ended June 30,				Six Montl June	ided	
	2021		2020		2021		2020
Net loss	\$ (3,756)	\$	(9,447)	\$	(14,135)	\$	(14,392)
Weighted average number of shares - basic and diluted	19,275,779		17,549,118		19,263,506		16,986,485
Net loss per share - basic and diluted	\$ (0.19)	\$	(0.54)	\$	(0.73)	\$	(0.85)

Our basic and diluted net loss per share is computed using the two-class method. The two-class method is an earnings allocation that determines net income per share for each class of common stock and participating securities according to their participation rights in dividends and undistributed earnings or losses. Non-vested restricted stock that includes non-forfeitable rights to dividends are considered participating securities.

Because we have incurred a net loss for all periods presented, diluted net loss per common share is the same as basic net loss per common share. The following contingently issuable and convertible equity shares were excluded from the calculation of diluted net loss per share because their effect would have

been anti-dilutive for all periods presented:

Restricted stock	Six Months Ended June 30,						
	2021	2020					
	381,657	437,347					
Stock options	10,792	29,258					
Warrants	_	404					
Total shares	392,449	467,009					

NOTE 10 - BUSINESS SEGMENT

Operating segments are defined as components of an enterprise for which separate financial information is available that is evaluated regularly by the chief operating decision maker, or decision making group, in deciding how to allocate resources and in assessing performance. We have one operating and reporting segment, OrthoPediatrics Corp., which designs, develops and markets anatomically appropriate implants and devices for children with orthopedic problems. Our chief operating decision-maker, our Chief Executive Officer, reviews financial information presented on a consolidated basis for purposes of making operating decisions and assessing financial performance, accompanied by disaggregated revenue information by product category. We determined that disaggregating revenue into these categories achieves the disclosure objective of illustrating the differences in the nature, timing and uncertainty of our revenue streams. We do not assess the performance of our individual product categories on measures of profit or loss, or other asset-based metrics. Therefore, the information below is presented only for revenue by category and geography.

Product sales attributed to a country or region includes product sales to hospitals, physicians and distributors and is based on the final destination where the products are sold. No customers accounted for more than 10% of total product sales for the three and six months ended June 30, 2021 or 2020. No customer accounted for more than 10% of consolidated accounts receivable as of June 30, 2021 and December 31, 2020.

Product sales by source were as follows:

		Three Months	Ended	June 30,	Six Months Ended June 30,			
Product sales by geographic location:	2021		2020			2021	2020	
U.S.	\$	21,737	\$	12,146	\$	38,576	\$	25,530
International		4,958		1,447		9,581		4,419
Total	\$	26,695	\$	13,593	\$	48,157	\$	29,949

		Three Months	Ended -	June 30,	Six Months Ended June 30,				
Product sales by category:	2021		2020		2021		2020		
Trauma and deformity	\$	17,933	\$	9,220	\$	32,485	\$	21,430	
Scoliosis		7,657		3,836		13,608		7,547	
Sports medicine/other		1,105		537		2,064		972	
Total	\$	26,695	\$	13,593	\$	48,157	\$	29,949	

No individual country with sales originating outside of the United States accounted for more than 10% of consolidated revenue for the three and six months ended June 30, 2021 and 2020.

NOTE 11 - RELATED PARTY TRANSACTIONS

In addition to the debt and credit agreements and mortgage with Squadron and its affiliate (see Note 6), we currently use Structure Medical, LLC ("Structure Medical") as one of our suppliers. Structure Medical is affiliated with Squadron and a supplier with which we maintain certain long-term agreements. We made aggregate payments to Structure Medical for inventory purchases of \$197 and \$934 for the three months ended June 30, 2021 and 2020, respectively and \$269 and \$2,135 for the six months ended June 30, 2021 and 2020, respectively.

On December 31, 2019, the Company divested Vilex for \$25,000 to an affiliate of Squadron. In conjunction with the divestiture, the Company also entered into an exclusive perpetual license agreement to permit the purchasers of Vilex the ability to access intellectual property and sell products using the external fixation technology of Orthex, LLC to non-pediatric accounts. We had sales and payments related to inventory purchases to Squadron's affiliate, now known as Vilex, LLC, of \$68 and \$336, respectively, for the three months ended June 30, 2021, and \$155 and \$525, respectively, for the six months ended June 30, 2021, respectively. We had sales and payments related to inventory purchases to Vilex, LLC of \$138 and \$899, respectively, for the three months ended June 30, 2020, and \$524 and \$1,539, respectively, for the six months ended June 30, 2020.

NOTE 12 - EMPLOYEE BENEFIT PLAN

We have a defined-contribution plan, OrthoPediatrics 401(k) Retirement Plan (the "401(k) Plan"), which includes a cash or deferral (Section 401(k)) arrangement. The 401(k) Plan covers those employees who meet certain eligibility requirements and elect to participate. Employee contributions are limited to the annual amounts permitted under the Internal Revenue Code. The 401(k) Plan allows us to make a discretionary matching contribution. Discretionary matching contributions are determined annually by management. We have elected to match our employees' 401(k) contributions up to 4% of employees' salary.

NOTE 13 - COMMITMENTS AND CONTINGENCIES

Leases

At the inception of a contractual arrangement, the Company determines whether the contract contains a lease by assessing whether there is an identified asset and whether the contract conveys the right to control the use of the identified asset in exchange for consideration over a period of time. If both criteria are met, the Company calculates the associated lease liability and corresponding right-of-use asset upon lease commencement using a discount rate based on a borrowing rate commensurate with the term of the lease.

The Company records lease liabilities within current liabilities or long-term liabilities based upon the length of time associated with the lease payments. The Company records its operating lease right-of-use assets as long-term assets.

As of June 30, 2021, the Company has recorded a lease liability of \$292 and corresponding right-of-use-asset of \$295 on its condensed consolidated balance sheet.

Legal Proceedings

From time to time, we are involved in various legal proceedings arising in the ordinary course of our business.

K2M - Alleged Patent Infringement

On January 20, 2017, K2M, Inc. filed suit against us in the United States District Court for the District of Delaware (K2M, Inc. v. OrthoPediatrics Corp. et al., Case No. 1:17-cv-0061) seeking unspecified damages for alleged infringement of U.S. Patent No. 9,532,816. The complaint was amended on August 21, 2017 to add, among other things, a claim of patent infringement regarding U.S. Patent No. 9,655,664. These patents relate to certain instruments used in our RESPONSE™ spine systems, which represent a portion of our total scoliosis portfolio. We denied these claims and responded with counterclaims seeking declaratory relief that the patents in question are both invalid and not infringed. On November 19, 2019, K2M amended its complaint to add two (2) additional issued patents, to add claims of patent infringement regarding U.S. Patent Nos. 10,285,735 and 10,292,736 (both issued in May 2019). Like before, these newly issued K2M patents relate to certain instruments used in our RESPONSE spine systems, and we denied these claims and responded with counterclaims seeking declaratory relief that the patents in question are both invalid and not infringed. On June 29, 2021, the parties settled the matter, and subsequently filed a Joint Stipulation of Dismissal With Prejudice concerning all claims and counterclaims, which the Court subsequently granted and ordered. The Company previously accrued for the related expense during the fourth quarter of 2020. No material modifications were made to the accrual during the three or six months ended June 30, 2021, and the payment made during the second quarter satisfies all liabilities associated with this matter.

IMED Surgical - Software Ownership Dispute

On October 16, 2020, the Company, its wholly-owned subsidiary, Orthex, LLC ("Orthex"), the Company's largest investor, Squadron Capital, LLC ("Squadron"), and certain other defendants, were named in a lawsuit filed by IMED Surgical, LLC, a New Jersey company (the "Plaintiff"), in Broward County, Florida Circuit Court. In the lawsuit, the Plaintiff claims, among other things, that it is the rightful owner of certain patented point-and-click planning software being used by the Company, Orthex and Squadron (the "Point & Click Software").

In June 2019, the Company purchased all the issued and outstanding units of membership interests in Orthex, and all the issued and outstanding shares of stock of Vilex in Tennessee, Inc. ("Vilex") for \$60 million in total consideration. Vilex and Orthex are primarily manufacturers of foot and ankle surgical implants, including cannulated screws, fusion devices, surgical staples and bone plates, as well as the Orthex Hexapod technology, a system of rings, struts, implants, hardware accessories, and the Point & Click Software used to treat congenital deformities and limb length discrepancies. On December 31, 2019, the Company divested substantially all of the assets relating to Vilex's adult product offerings to a wholly-owned subsidiary of Squadron, in exchange for a \$25 million reduction in a term note owed to Squadron in connection with the initial acquisition. As part of the sale, the Company also executed an exclusive license arrangement with Squadron providing for perpetual access to certain intellectual property, including the Point & Click Software. According to the lawsuit, the other defendants, who are unrelated to the Company, assigned the Point & Click Software to Orthex in violation of certain agreements with the Plaintiff.

The Plaintiff, among other things, requests that the defendants be ordered to convey and assign to Plaintiff all of their rights, title and interests in and to the Software and seeks certain compensatory, consequential and unjust enrichment damages from Orthex and the unrelated defendants. Although we believe the IMED lawsuit is without merit and will vigorously defend the claims asserted us, litigation can involve complex factual and legal questions, and an adverse resolution of this proceeding could have a material adverse effect on our business, operating results and financial condition.

Barry - Alleged Patent Infringement

On December 30, 2020, Dr. Mark Barry filed suit against us in the United States District Court for the District of Delaware (Barry v. OrthoPediatrics Corp. et al., Case No. 1:20-cv-01786) seeking unspecified damages for alleged infringement of U.S. Patent Nos. 7,670,358; 8,361,121; 9,339,301; 9,668,787; and

9,668,788, which relate to systems and methods concerning derotation of spinal bodies to correct spinal deformities. On March 19, 2021, the parties reached a final settlement, which included the Company entering into a license agreement with Dr. Barry. The license agreement was recorded by the Company in the amount of \$2,858, which will be amortized over a period of up to 8 years based upon the number of cases utilizing the related spinal deformity system in a given period. The balance of the amount otherwise paid to Dr. Barry had been previously accrued for during the fourth quarter of 2020 in anticipation of this final settlement.

Royalties

As of June 30, 2021, we are contracted to pay royalties to individuals and entities that provide research and development services, which range from 0.5% to 20% of sales.

We have products in development that have milestone payments and royalty commitments. In any development project, there are significant variables that will affect the amount and timing of these payments and as of June 30, 2021, we have not been able to determine the amount and timing of payments. We do not anticipate these future payments will have a material impact on our financial results.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This Management's Discussion and Analysis of Financial Condition and Results of Operations should be read in conjunction with the condensed consolidated financial statements and related notes thereto contained elsewhere in this quarterly report, as well as the information under "Note Regarding Forward-Looking Statements."

The description of our business included in this quarterly report is summary in nature and only includes material developments that have occurred since the latest full description. The full description of the history and general development of our business is included in "Item 1. Description of Business" section of the Company's Annual Report on Form 10-K filed with the SEC on March 11, 2021, which section is incorporated herein by reference.

Overview

We are the only global medical device company focused exclusively on providing a comprehensive trauma and deformity correction, scoliosis and sports medicine product offering to the pediatric orthopedic market in order to improve the lives of children with orthopedic conditions. We design, develop and commercialize innovative orthopedic implants and instruments to meet the specialized needs of pediatric surgeons and their patients, who we believe have been largely neglected by the orthopedic industry. We currently serve three of the largest categories in this market. We estimate that the portion of this market that we currently serve represents a \$3.3 billion opportunity globally, including over \$1.5 billion in the United States.

We sell implants and instruments to our customers for use by pediatric orthopedic surgeons to treat orthopedic conditions in children. We provide our implants in sets that consist of a range of implant sizes and include the instruments necessary to perform the surgical procedure. In the United States and multiple international markets, our customers typically expect us to have full sets of implants and instruments on site at each hospital but do not purchase the implants until they are used in surgery. Accordingly, we must make an up-front investment in inventory of consigned implants and instruments before we can generate revenue from a particular hospital and we maintain substantial levels of

inventory at any given time. In the international markets where we sell to stocking distributors, we transfer control of our products to the distributor when title passes upon shipment.

We currently market 36 surgical systems that serve three of the largest categories within the pediatric orthopedic market: (i) trauma and deformity, (ii) scoliosis and (iii) sports medicine/other. We rely on a broad network of third parties to manufacture the components of our products, which we then inspect and package. We believe our innovative products promote improved surgical accuracy, increase consistency of outcomes and enhance surgeon confidence in achieving high standards of care. In the future, we expect to expand our product offering within these categories, as well as to address additional categories of the pediatric orthopedic market.

The majority of our revenue has been generated in the United States, where we sell our products through a network of 40 independent sales agencies employing more than 182 sales representatives specifically focused on pediatrics. These independent sales agents are trained by us, distribute our products and are compensated through sales-based commissions and performance bonuses. We do not sell our products through or participate in physician-owned distributorships, or PODs.

We market and sell our products internationally in 45 countries, through independent stocking distributors and sales agencies. Our independent distributors manage the billing relationship with each hospital in their respective territories and are responsible for servicing the product needs of their surgeon customers. In 2017, we began to supplement our international stocking distributors with sales agencies using direct sales programs in the United Kingdom, Ireland, Australia and New Zealand where we sell directly to the hospitals. We began selling direct to Canada in September 2018, Belgium and the Netherlands in January 2019, Italy in March 2020 and Germany, Switzerland and Austria in January 2021. Additionally, in March 2019, we established an operating company in the Netherlands in order to enhance our operations in Europe. In these markets, we work through sales agencies that are paid a commission, similar to our U.S. sales model. We expect these arrangements to generate an increase in revenue and gross margin.

We believe there are significant opportunities for us to strengthen our position in U.S. and international markets by increasing investments in consigned implant and instrument sets, strengthening our global sales and distribution infrastructure and expanding our product offering.

Impact of COVID-19 on our Business

The global COVID-19 pandemic ("COVID-19" or the "pandemic"), together with the preventative and precautionary measures taken by governments, governmental agencies, communities, businesses and hospital administrators, has impacted, and may continue to impact significant aspects of our business, including demand for our products, supply chain and distribution systems, our operations generally, and the timing for bringing new products to market. We also expect medical procedure rates to continue to vary by type and country, and could be impacted by regional COVID-19 case volumes, hospital and clinical occupancy and staffing levels, the willingness of patients to schedule elective procedures, travel and quarantine restrictions, vaccine immunization rates, and new COVID-19 variants. While COVID-19 case volumes appear to be decreasing in the U.S. and certain other countries as a result of higher vaccination rates, the global COVID-19 outlook remains uncertain as vaccination rates have slowed and the spread of new variants has accelerated. While the impact of COVID-19 has had, and may continue to have, an adverse effect on our business, results of operations, financial condition and cash flows, the nature and extent of such impact is unknown, as we cannot predict with confidence the ultimate duration or further severity of the pandemic. We encourage the readers of this document to read our risk factors in their entirety contained in Item 1A "Risk Factors" in our Annual Report on Form 10-K filed with the Securities and Exchange Commission (the "SEC") on March 11, 2021 and in other reports filed with the SEC that discuss the risks and factors that may affect our business.

Despite the impact COVID-19 has had on our business, we continue to invest in research and development, invest in our people, and take steps to position ourselves for long-term success.

Health and Safety

From the earliest signs of the outbreak, we have taken proactive, aggressive action to protect the health and safety of our employees, customers, partners and suppliers. We enacted rigorous safety measures in all applicable locations, including implementing social distancing protocols, requiring working from home for those employees that do not need to be physically present on the warehouse floor, suspending travel, extensively and frequently disinfecting our workspaces and providing masks to those employees who must be physically present. We will continue to utilize some or all of these measures until we determine that the COVID-19 pandemic is adequately contained for purposes of our business. We may also take further actions as government authorities require or recommend or as we determine to be in the best interests of our employees, customers, partners and suppliers.

Supply

We have not yet experienced any significant impacts or interruptions to our supply chain as a result of the COVID-19 pandemic. To mitigate the risk of any potential supply interruptions from the COVID-19 pandemic, we chose to increase certain inventory levels during the quarter. We may decide to take similar actions going forward. Additionally, restrictions or disruptions of transportation, such as reduced availability of air transport, port closures and increased border controls or closures, may result in higher costs and delays.

Demand

The outbreak has significantly increased economic and demand uncertainty. We anticipate that the current outbreak or continued spread of COVID-19, and the actions taken by governmental authorities and other third parties to contain the virus, may cause a global economic slowdown, and it is possible that it could cause a global recession. In the event of a recession, demand for our products would decline and our business would be adversely effected. We have experienced a reduction in revenue as a result of global delays in elective surgeries.

Liquidity

Although there is uncertainty related to the anticipated impact of the recent COVID-19 outbreak on our future results, we believe our business model, our current cash reserves and the recent steps we have taken to strengthen our balance sheet, including our June 2020 and December 2019 equity offerings, leave us well-positioned to manage our business through this crisis as it continues to unfold. We believe our existing balances of cash and our currently anticipated operating cash flows will be sufficient to meet our cash needs arising in the ordinary course of business for the next twelve months.

We continue to monitor the rapidly evolving situation and guidance from international and domestic authorities, including federal, state and local public health authorities and may take additional actions based on their recommendations. In these circumstances, there may be developments outside our control requiring us to adjust our operating plan. As such, given the dynamic nature of this situation, we cannot reasonably estimate the impacts of COVID-19 on our financial condition, results of operations or cash flows in the future.

Emerging Growth Company and Smaller Reporting Company Status

We will qualify as an "emerging growth company" as defined in the Jumpstart Our Business Startups Act (the "JOBS Act") until December 31, 2022. For as long as a company is deemed to be an emerging growth company, it may take advantage of specified reduced reporting and other regulatory requirements

that are generally unavailable to other public companies. We also qualify as a "smaller reporting company," as such term is defined in Rule 12b-2 under the Exchange Act. To the extent that we continue to qualify as a smaller reporting company, after we cease to qualify as an emerging growth company, certain of the exemptions available to us as an emerging growth company may continue to be available to us as a smaller reporting company. The JOBS Act also provides that an emerging growth company can delay the adoption of certain accounting standards until those standards would otherwise apply to private companies. We have irrevocably elected not to avail ourselves of this exemption from new or revised accounting standards and, therefore, we are subject to the same new or revised accounting standards as other public companies that are not emerging growth companies.

Summary of Statements of Operations for the Three and Six Months Ended June 30, 2021 and 2020

The following table sets forth our results of operations for the three and six months ended June 30, 2021 and 2020:

	Thre	ee Months End	ded June 30,	 Six Months Ended June 30,							
	2021	2020	Increase (Decrease)	%	2021	2020	Increase (Decrease)	%			
Net revenue	\$ 26,695 \$	13,593 \$	13,102	96 %	\$ 48,157 \$	29,949 \$	18,208	61 %			
Cost of revenue	6,252	3,532	2,720	77 %	11,389	7,675	3,714	48 %			
Sales and marketing expenses	10,876	5,620	5,256	94 %	19,825	13,184	6,641	50 %			
General and administrative expenses	11,088	10,577	511	5 %	23,129	18,458	4,671	25 %			
Research and development expenses	1,325	881	444	50 %	2,633	2,146	487	23 %			
Other expenses	1,196	2,430	(1,234)	(51)%	5,914	2,878	3,036	105 %			
Provision for income taxes (benefit)	(286)	_	(286)	100 %	(598)	_	(598)	100 %			
Net loss	\$ (3,756) \$	(9,447) \$	(5,691)	(60)%	\$ (14,135) \$	(14,392) \$	(257)	(2)%			

Net Revenue

The following tables set forth our net revenue by geography and product category for the three and six months ended June 30, 2021 and 2020:

	Three Months Ended June 30,				Six Months Ended June 30,					
Product sales by geographic location:	 2021	2020		2021			2020			
U.S.	\$ 21,737	\$	12,146	\$	38,576	\$	25,530			
International	 4,958		1,447		9,581		4,419			
Total	\$ 26,695	\$	13,593	\$	48,157	\$	29,949			
	Three Months Ended June 30,				Six Months E	nded Ju	ded June 30,			
Product sales by category:	 2021 2020		2020		2021	2020				
Trauma and deformity	\$ 17,933	\$	9,220	\$	32,485	\$	21,430			
Scoliosis	7,657		3,836		13,608		7,547			
Sports medicine/other	 1,105		537		2,064		972			
Total	\$ 26,695	\$	13,593	\$	48,157	\$	29,949			

Net revenue increased \$13.1 million, or 96%, from \$13.6 million for the three months ended June 30, 2020 to \$26.7 million for the three months ended June 30, 2021 and increased \$18.2 million, or 61%, from \$29.9 million for the six months ended June 30, 2020 to \$48.2 million for the six months ended June 30, 2021. The increase during the three and six months ended June 30, 2021 reflects the continued

return to normalization in both the U.S. and international markets which, during the three months ended June 30, 2020, experienced the most significant impacts from the COVID-19 pandemic. Additionally, we continue to see the benefit of converting Germany, Austria, and Switzerland to a direct agency sales model.

Trauma and deformity sales increased \$8.7 million, or 95%, during the three months ended June 30, 2021, and increased \$11.1 million, or 52%, during the six months ended June 30, 2021, in each case, primarily driven by strong trauma and deformity growth across numerous product lines, specifically our PNP Femur, Cannulated Screws and Orthex systems. Scoliosis sales increased \$3.8 million, or 100%, during the three months ended June 30, 2021, and increased \$6.1 million, or 80%, during the six months ended June 30, 2021, in each case, primarily driven by increased sales of our RESPONSE 5.5/6.0 system and FIREFLY® Pedicle Screw Navigation Guides, and additional sales contributed from the ApiFix acquisition. Sports medicine / other increased \$0.6 million, or 106%, during the three months ended June 30, 2021, and increased \$1.1 million, or 112%, during the six months ended June 30, 2021, in each case, primarily driven by the additional sales contributed from Telos. Nearly all the change in each category was due to an increase in the unit volume sold and not a result of price changes.

Cost of Revenue and Gross Margin

Cost of revenue increased \$2.7 million, or 77%, from \$3.5 million for the three months ended June 30, 2020 to \$6.3 million for the three months ended June 30, 2021. Cost of revenue increased \$3.7 million, or 48%, from \$7.7 million for the six months ended June 30, 2020 to \$11.4 million for the six months ended June 30, 2021. The increases were due primarily to increased sales volume in both the U.S. and international markets. Gross margin was 74% for the three months ended June 30, 2020 and 77% for the three months ended June 30, 2021. Gross margin was 74% for the six months ended June 30, 2020 and 76% for the six months ended June 30, 2021.

Sales and Marketing Expenses

Sales and marketing expenses increased \$5.3 million, or 94%, to \$10.9 million for the three months ended June 30, 2021 from \$5.6 million for the three months ended June 30, 2020. Sales and marketing expenses increased \$6.6 million, or 50%, to \$19.8 million for the six months ended June 30, 2021 from \$13.2 million for the six months ended June 30, 2020. The changes in the three and six month periods ended June 30, 2021 were due primarily to increased sales commission expenses, driven by increased unit volumes sold.

General and Administrative Expenses

General and administrative expenses increased \$0.5 million, or 5%, from \$10.6 million for the three months ended June 30, 2020 to \$11.1 million for the three months ended June 30, 2021. General and administrative expenses increased \$4.7 million, or 25%, from \$18.5 million for the six months ended June 30, 2020 to \$23.1 million for the six months ended June 30, 2021. The increases for the three and six month periods ended June 30, 2021 were due primarily to the additional expenses associated with the ApiFix and Telos acquisitions, the addition of personnel and resources to support the continued expansion of our business and an increase in legal and other professional service expense associated with litigation.

Depreciation and amortization expenses increased \$0.7 million, or 34%, from \$1.9 million for the three months ended June 30, 2020 to \$2.6 million for the three months ended June 30, 2021. Depreciation and amortization expenses increased \$1.8 million, or 54%, from \$3.3 million for the six months ended June 30, 2020 to \$5.1 million for the six months ended June 30, 2021. The increases for the three and six month periods ended June 30, 2021 were primarily due to the amortization of intangible assets acquired through the Vilex, Telos and ApiFix acquisitions and the purchase of the Band-Lok intellectual property.

Research and Development Expenses

Research and development expenses increased \$0.4 million, or 50%, from \$0.9 million for the three months ended June 30, 2021 to \$1.3 million for the three months ended June 30, 2021. Research and development expenses increased \$0.5 million, or 23%, from \$2.1 million for the six months ended June 30, 2020 to \$2.6 million for the six months ended June 30, 2021. The increases for the three and six month periods ended June 30, 2021 were primarily due to incremental product development including the addition of personnel and the growth of our business.

Total Other Expenses

Other expenses were \$1.2 million and \$2.4 million for the three months ended June 30, 2021 and 2020, respectively, and \$5.9 million and \$2.9 million for the six months ended June 30, 2021 and 2020, respectively. The decrease in other expense for the three months ended June 30, 2021 was primarily due to the decrease in interest expense after repaying all outstanding debt with Squadron. The increase in other expense for the six months ended June 30, 2021 is primarily due to the accretion of interest expense attributable to the acquisition installment payable and the fair value adjustments of contingent consideration related to the ApiFix acquisition. The aggregate of accreted interest expense and fair value adjustments for the three and six months ended June 30, 2021 were \$1.6 million and \$6.4 million, respectively, and for both the three and six months ended June 30, 2020, was \$1.8 million.

Liquidity and Capital Resources

We have incurred operating losses since inception which resulted in negative cash flows for continuing operations from operating activities of \$10.9 million and \$14.7 million for the six months ended June 30, 2021 and 2020, respectively. As of June 30, 2021, we had an accumulated deficit of \$175.9 million. We anticipate that our losses will continue in the near term as we continue to expand our product portfolio and invest in additional consigned implant and instrument sets to support our expansion into existing and new markets. Since inception, we have funded our operations primarily with proceeds from the sales of our common and preferred stock, convertible securities and debt, as well as through sales of our products. At June 30, 2021, we had cash and cash equivalents, restricted cash and short term investments of \$67.2 million.

Cash Flows

The following table sets forth our cash flows from operating, investing and financing activities for the periods indicated:

	Six Months Ended June 30,		
	2021		2020
Net cash used in operating activities	\$ (10,891)	\$	(14,707)
Net cash used in investing activities	(7,332)		(9,349)
Net cash provided by (used in) financing activities	(2)		66,427
Effect of exchange rate changes on cash	29		17
Net (decrease) increase in cash	\$ (18,196)	\$	42,388

Cash Used in Operating Activities

Net cash used in operating activities from continuing operations was \$10.9 million and \$14.7 million for the six months ended June 30, 2021 and 2020, respectively. The primary use of this cash was to fund our operations related to the development and commercialization of our products in each of these years. Net cash used for working capital was \$10.4 million and \$8.8 million for the six months ended June 30, 2021 and 2020, respectively. During the six months ended June 30, 2021, the primary driver of working capital cash usage was the increase in accounts receivable of \$1.8 million due to increased sales during the

period, the increase in inventory of \$3.3 million to support future sales growth, and legal settlements of \$6.3 million. This cash usage was offset primarily by other accrued expenses which was a source of cash of \$1.1 million.

Cash Used in Investing Activities

Net cash used in investing activities was \$7.3 million and \$9.3 million for the six months ended June 30, 2021 and 2020, respectively. Net cash used in investing activities for the six months ended June 30, 2021 consisted of the purchase of a license agreement as a result of the Dr. Barry legal settlement and purchases of instrument sets of \$4.5 million. Net cash used in investing activities for the six months ended June 30, 2020 consisted of \$1.7 million for the acquisition of Telos, net of cash received, the acquisition of ApiFix for \$1.7 million, net of cash received, the acquisition of the Band-Lok intellectual propoerty of \$0.8 million and \$5.2 million for purchases of instrument sets.

Cash Provided By Financing Activities

Net cash used in financing activities for the six months ended June 30, 2021 was immaterial to the results of our operations. Net cash provided by financing activities for the six months ended June 30, 2020 was \$66.4 million, consisting primarily of the proceeds from the issuance of common stock of \$70.2 million and \$1.3 million from the exercise of stock options and offset by the payment of \$5.0 million of the revolving credit facility with Squadron.

Indebtedness

Loan Agreement

On December 31, 2017, we entered into a Fourth Amended and Restated Loan and Security Agreement, or the Loan Agreement, with Squadron Capital LLC, or Squadron, the Company's largest investor. Under the terms of the Loan Agreement, which has been amended by a First Amendment dated as of June 4, 2019 and a Second Amendment dated as of August 4, 2020 (as so amended, the "Second Amended Loan Agreement"), Squadron is providing the Company a revolving credit facility in the amount of \$25.0 million. Borrowings under the revolving credit facility are to be made under a First Amended and Restated Revolving Note, dated August 4, 2020 (the "Amended Revolving Note"), payable, jointly and severally, by the Company and each of its subsidiaries party thereto. The Amended Revolving Note will mature at the earlier of: (i) the date on which any person or persons acquire (x) capital stock of the Company possessing the voting power to elect a majority of the Company's Board of Directors (whether by merger, consolidation, reorganization, combination, sale or transfer), or (y) all or substantially all of the Company's assets, determined on a consolidated basis; and (ii) January 1, 2024. The Second Amended Loan Agreement provides for interest only payments, which are payable monthly, with an interest rate equal to the greater of (a) three month LIBOR plus 8.61%, and (b) 10.00%.

On January 4, 2020, the Company repaid Squadron \$5.0 million outstanding under the revolving credit facility in effect at that time and, on July 15, 2020, the Company repaid the \$20.0 million Term Note A outstanding under the Loan Agreement, together with all unpaid interest and other related amounts payable. The Company does not currently have any borrowings outstanding under the Second Amended Loan Agreement.

The Company has agreed to pay Squadron an unused commitment fee in an amount equal to the per annum rate of 0.50% (computed on the basis of a year of 360 days and the actual number of days elapsed) times the daily unused portion of the revolving credit commitment. The unused commitment fee is payable guarterly in arrears.

Borrowings under the Second Amended Loan Agreement are secured by substantially all of the Company's assets and are unconditionally guaranteed by each of its subsidiaries with the exception of Vilex. There are no traditional financial covenants associated with the Second Amended Loan Agreement. However, there are negative covenants that prohibit us from, among other things, transferring any of our material assets, merging with or acquiring another entity, entering into a transaction that would result in a change of control, incurring additional indebtedness, creating any lien on our property, making investments in third parties and redeeming stock or paying dividends, in each case subject to certain exceptions as further detailed in the Second Amended Loan Agreement.

The Second Amended Loan Agreement includes events of default, the occurrence and continuation of any of which provides Squadron with the right to exercise remedies against us and the collateral securing the loans, including cash. These events of default include, among other things, the failure to pay amounts due under the credit facilities, insolvency, the occurrence of a material adverse event, which includes a material adverse change in our business, operations or properties (financial or otherwise) or a material impairment of the prospect of repayment of any portion of the obligations, the occurrence of any default under certain other indebtedness and a final judgment against us in an amount greater than \$250 thousand. The occurrence of a material adverse change could result in the acceleration of payment of the debt.

Mortgage Note

In August 2013, pursuant to the purchase of our office and warehouse space, we entered into a mortgage note payable to Tawani Enterprises Inc., the owner of which is a member of Squadron's management committee. Pursuant to the terms of the mortgage note, we pay Tawani Enterprises Inc. monthly principal and interest installments of \$15,543, with interest compounded at 5% until maturity in August 2028, at which time a final payment of remaining principal and interest will become due. The mortgage is secured by the related real estate and building. The mortgage balance was \$1.1 million and \$1.2 million at June 30, 2021 and December 31, 2020, respectively.

Pediatric Orthopedic Business Seasonality

Our revenue is typically higher in the summer months and holiday periods, driven by higher sales of our trauma and deformity and scoliosis products, which is influenced by the higher incidence of pediatric surgeries during these periods due to recovery time provided by breaks in the school year. Additionally, our scoliosis patients tend to have additional health challenges that make scheduling their procedures variable in nature.

Critical Accounting Policies and Significant Judgments and Estimates

This management's discussion and analysis of financial condition and results of operations is based on our consolidated financial statements, which have been prepared in accordance with GAAP. The preparation of these financial statements requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements, as well as the reported revenue and expenses during the reporting periods. We monitor and analyze these items for changes in facts and circumstances, and material changes in these estimates could occur in the future. We base our estimates on historical experience and on various other factors that we believe are reasonable under the circumstances, the results of which form the basis for making judgments about the carrying value of assets and liabilities that are not readily apparent from other sources. Changes in estimates are reflected in reported results for the period in which they become known. Actual results may differ materially from these estimates under different assumptions or conditions.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

As a "smaller reporting company," we are not required to provide the information required by this item.

ITEM 4. CONTROLS AND PROCEDURES

a. Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) at the end of the period covered by this quarterly report.

Based on this evaluation, we concluded that, as of such date, our disclosure controls and procedures were effective to provide reasonable assurance that the information required to be disclosed by us in the reports we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

We recognize that any controls system, no matter how well designed and operated, can provide only reasonable assurance of achieving its objectives, and our management necessarily applies its judgment in evaluating the benefits of possible controls and procedures relative to their costs.

b. Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting during the period covered by this quarterly report that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act).

PART II. OTHER INFORMATION

ITEM 1. **LEGAL PROCEEDINGS**

From time to time, we are involved in various legal proceedings arising in the ordinary course of our business.

A discussion of those legal proceedings is contained in Note 13 – Commitments and Contingencies (under the heading "Legal Proceedings") of the notes to the condensed consolidated financial statements included in Item 1. Financial Statements of Part I of this quarterly report on Form 10-Q, which discussion is incorporated herein by reference.

We are not presently a party to any other legal proceedings the outcome of which, if determined adversely to us, would individually or in the aggregate materially affect our financial position, results of operations or cash flows.

ORTHOPEDIATRICS CORP. NON-EMPLOYEE DIRECTOR COMPENSATION POLICY

(Effective as of August 1, 2021)

OrthoPediatrics Corp. (the "Company") believes that granting equity and cash compensation to its directors who are not employees of the Company ("Outside Directors") represents a powerful tool to attract, retain and reward its Outside Directors and to align the interests of its Outside Directors with those of its shareholders. This Non-Employee Director Compensation Policy (this "Policy") is intended to formalize the Company's policy regarding grants of equity and cash compensation to its Outside Directors. Unless otherwise defined herein, capitalized terms used in this Policy will have the meanings given to such terms in the Company's 2017 Incentive Award Plan, or any successor plan(s) thereto (the "Plan"). All amounts granted or paid pursuant to this Policy will be made under the terms of the Plan.

1. Equity Compensation. Each Outside Director who is serving on the Company's Board of Directors (the "**Board**") as of the date of an annual meeting of the Company's shareholders will be automatically granted one thousand four hundred (1,400) shares of Restricted Stock (an "**Annual Award**") on the date of such annual meeting of the Company's shareholders. One-third of the Annual Award will vest on the earlier of (i) each of the first, second and third anniversary dates of the grant and (ii) the date of the annual meeting of the Company's shareholders in each of the first, second and third years following the date of grant, as applicable, subject to the Outside Director's continued status as an Eligible Individual through the applicable vesting dates.

2. Cash Compensation

- (a) <u>Meeting Fees</u>. The Company will pay each Outside Director a meeting fee of \$9,375 for each regular quarterly meeting of the Board attended by such Outside Director (each, a "*Meeting Fee*").
- (b) <u>Chairperson Annual Fee</u>. If an Outside Director is serving as the chairperson of the Board, the Audit Committee, the Compensation Committee or the Corporate Governance Committee (each a "*Chairperson*"), then, in addition to the Meeting Fees, the Company will pay to the Chairperson an additional annual fee of \$3,000 for serving in such role (the "*Chairperson Fee*"). The Chairperson Fee will be paid to the Chairperson in four equal installments on a quarterly basis at the end of the applicable quarter provided the individual served as the relevant Chairperson during the full quarter, with the amount prorated in the event the individual did not serve as the relevant Chairperson for the full quarter.

3. Miscellaneous

- (a) Revisions. The Board, in its discretion, may change and otherwise revise the terms of this Policy, including, without limitation, the amount of equity or cash compensation to be paid to Outside Directors.
- (b) <u>Section 409A</u>. In no event shall cash compensation payable pursuant to this Policy be paid later than March 15 following the calendar year in which the compensation is earned, in compliance with the "short-term deferral" exception to Section 409A. This Policy is intended to comply with the requirements of Section 409A so that none of the compensation to be provided hereunder shall be subject to the additional tax imposed under Section 409A, and any ambiguities herein shall be interpreted to so comply.

CERTIFICATION PURSUANT TO RULE 13a-14(a)/15d-14(a) OF THE SECURITIES EXCHANGE ACT OF 1934, AS ADOPTED PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002

I, David R. Bailey, certify that:

- 1. I have reviewed this Quarterly Report on Form 10-Q of OrthoPediatrics Corp.;
- 2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- 3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- 4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared:
 - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with general accepted accounting principles;
 - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is likely to materially affect, the registrant's internal control over financial reporting; and
- 5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
