OrthoPediatrics Corp.

Date: August 6, 2020 By: /s/ Daniel J. Gerritzen

Daniel J. Gerritzen, General Counsel and Secretary

Forward-Looking Statements

This presentation includes "forward-looking statements" within the meaning of U.S. federal securities laws. You can identify forward statements by the use of words such as "may," "might," "will," "should," "expect," "plan," "anticipate," "could," "believe," "estimate," "graget," "predict," "intend," "future," "goals," "potential," "objective," "would" and other similar expressions. Forward-looking statements risks and uncertainties, many of which are beyond OrthoPediatrics' control. Important factors could cause actual results to differ materia those in the forward-looking statements, including, among others: the risks related to COVID-19, the impact such pandemic may have on the for our products, and our ability to respond to the related challenges; and the risks, uncertainties and factors set forth under "Risk Fac OrthoPediatrics' Annual Report on Form 10-K filed with the SEC on March 5, 2020, as updated and supplemented by our other SEC reports fil to time. Forward-looking statements speak only as of the date they are made. OrthoPediatrics assumes no obligation to update forward statements to reflect actual results, subsequent events, or circumstances or other changes affecting such statements except to the extent r by applicable securities laws.

Use of Non-GAAP Financial Measures

This presentation includes the non-GAAP financial measure of Adjusted EBITDA, which differs from financial measures calculated in accordar U.S. generally accepted accounting principles ("GAAP"). Adjusted EBITDA in this release represents net loss, plus interest expense, net plu expense, depreciation and amortization, stock-based compensation expense, and acquisition related costs. Adjusted EBITDA is presented | the Company believes it is a useful indicator of its operating performance. Management uses the metric as a measure of the Company's or performance and for planning purposes, including financial projections. The Company believes this measure is useful to investors as supply information because it is frequently used by analysts, investors and other interested parties to evaluate companies in its industry. The C believes Adjusted EBITDA is useful to its management and investors as a measure of comparative operating performance from period to Adjusted EBITDA is a non-GAAP financial measure and should not be considered as an alternative to, or superior to, net income or loss as a r of financial performance or cash flows from operations as a measure of liquidity, or any other performance measure derived in accordan GAAP, and it should not be construed to imply that the Company's future results will be unaffected by unusual or non-recurring items. In a the measure is not intended to be a measure of free cash flow for management's discretionary use, as it does not reflect certain cash require such as debt service requirements, capital expenditures and other cash costs that may recur in the future. Adjusted EBITDA contains certain limitations, including the failure to reflect our cash expenditures, cash requirements for working capital needs and other potential cash require In evaluating Adjusted EBITDA, you should be aware that in the future the Company may incur expenses that are the same or similar to som adjustments in this presentation. The Company's presentation of Adjusted EBITDA should not be construed to imply that its future results unaffected by any such adjustments. Management compensates for these limitations by primarily relying on the Company's GAAP results in a to using Adjusted EBITDA on a supplemental basis. The Company's definition of this measure is not necessarily comparable to other similar captions of other companies due to different methods of calculation.

Large Market

Proprietary Technology

Scalable Business

- Diversified medical device company focused exclusively on pediatric orthopedics
- Protected market opportunity: \$1.4 billion U.S., \$3.2 billion globally (2019 estimates)
- ₩ High U.S. procedure concentration: <300 hospitals and ~1,400 surgeons
 </p>
- Focused call point: pediatric orthopedic surgeons are generalists who use all OP products
- Sustainable competitive advantage:
 - Broadest pediatric-specific orthopedic product offering with 35 surgical systems
 - Strong relationships with pediatric orthopedic surgeons
 - Deep commitment to clinical education
 - Sales personnel are a consultative resource who attend surgery
- Consistent 20+% growth since inception
 - FY19 revenue of \$72.6 million, up 26%
- Recent Orthex and ApiFix acquisitions give OP proprietary, leading-edge technology in both external fixation and non-fusion scoliosis markets and expand the Company's total addressa market

Environment and Company Response

- Working closely with surgeon base, partners, and key suppliers; continuing to build inventories of critical products
- Accelerated sales training on new products including Orthex and recently acquire A remote learning
- Company implemented safety measures across the organization, including working since mid-March
- Currently committed to no lay-offs or base reduction salary cuts to all direct employ established a Distributor Relief Fund for U.S. sales agencies
- Utilizing DocMatter website to sponsor webinars around pediatric orthopedic care i of COVID-19 pandemic
- Product development has not been affected and proceeds at normal pace

Impact on Financials

- 31% sales growth February 2020 YTD; March sales declined, which continued into A before turning around significantly in May and June, with the U.S. bouncing back que than international markets (12% U.S. decline versus a 67% international decline in 2
- Company withdrew its previously announced 2020 revenue growth and consignment guidance of 22%-24% and \$19-\$21 million, respectively
- Deformity Correction and Scoliosis businesses significantly impacted with month-to improvement in 2Q 2020 driven by elective procedures
- Anticipate 3Q 2020 revenues to demonstrate the month-to-month recovery trend s 2020

A Company Built on a CAUSE

Cause

Improving the lives of children with orthopedic conditions

Gideon with CMO Peter Armstrong, M.D., c. 1995. Gideon's drawing of his girlfriend, 2016.

Company Snapshot

- Treated >178,000 patients since inception
- 35 surgical systems; ~7,500 SKUs; strong pipeling
- 4 additional systems from Vilex and ApiFix acqui
- 2 109 direct employees; 164 focused sales reps1
- Global sales organization focused on pediatric orthopedic surgeons in 44 countries¹
- 82 issued patents; 74 pending patents²
- **Chief Medical Officer is a fellow surgeon**
- Average FDA approval time: < ½ industry average
- **History of stable reimbursement**

¹ As of June 30, 2020

² As of June 30, 2020 and does <u>not</u> include Vilex/Orthex patents/patent applications

Children Are Not Small Adults

New Systems & Upcoming Product Launches (2019-20

Expanding Our Addressable Market

Leading Edge Systems in Developm

Smart Implants

- Proof of concept established in 2018 with substantial development in 2019
- 2 embodiments: (1) scoliosis (2) intramedullary nailing
- OP will offer significant improvements to current technology

- Emerging surgical trends not being pursued major spine companies
- Intervention in patients as young as 10
- **Reversible, non-fusion procedures**
- Developing IP portfolio
- **Working with panel of leading surgeons**

Global Sales Cover

Currently selling to major children's hospitals in the U.S. and 43 additional countries

Converting to agency model in select markets has significantly increased volumes, ASPs, and gross ma

Replicate success of sales agency model in UK, IRE, AUS, NZ, CAN, BE, NL, and IT

Transaction Details

- Acquisition: In June 2019 OP purchased Vilex¹ and its Orthex Hexapod² system with proprietary point-and-click planning software, for \$60 million (\$50 million cash + \$10 million shares)
- <u>Divestiture</u>: In December 2019 OP sold the adult assets and Orthex license for non-pediatrics market to Squadron Capital for \$25 million cash.
- Net: Orthex Hexapod investment of \$35 million

Benefits

- Expands OP's Trauma & Deformity business into new segment valued at \$200 million globally
- Expands Trauma & Deformity's breadth from 60% to 80% of addressable market
- Increases surgeon reach to limb reconstruction specialists who treat pediatric patients beyond children's hospitals, generating pull-through of other products
- Divestiture allows OP to remain committed solely to pediatrics with cross license rights

¹ Vilex generated \$6.7 million of revenue in 2018 (most of which was adult)

² Hexapod had 50% annual revenue growth since FDA clearance in mid-2016; generated \$5.1 million of revenue in 2018

Orthex Advanta

Disruptive Technology

- **Construct allows 90° angulation**
- Unique calibrated structs and HA-coated pins
- Patented point and click software
- Significantly simplifies surgery planning and subsequent alignments

Dror Paley, MD - Pediatric orthopedic KOL

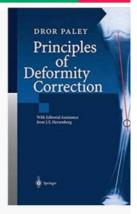

Introduced Ilizarov method in U.S.

Defend competitive position and risk

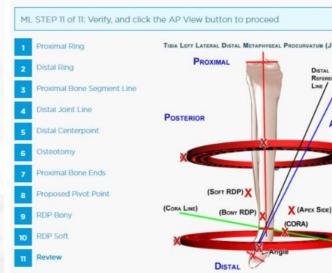

Defend other potential acquirers from entering the pediatric space

ML X-Ray

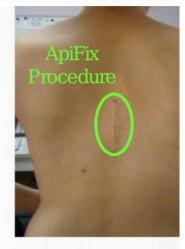

Transaction Details

Acquisition: In April 2020, OP purchased ApiFix¹ and its MID-C minimally invasive deformity correction system, for 934,768 shares of common stock and \$2 million in cash paid at closing, plus milestone payments and an earnout over a period of four years

Benefits

- Expands OP's Scoliosis business into non-fusion market, the holy grail of pediatric scoliosis surgery
- One of only two non-fusion technologies approved by the U.S. FDA and granted pediatric HDE
- Least invasive, removable system that acts as an internal brace with motion-preserving capabilities to avoids permanently limiting range of motion
- Measurable reductions in surgery time, blood loss, hospitalization, recovery time, and complication rates
- Extremely high sales/dollar of set inventory
- Strong IP protection: 46 granted patents and 26 patent applications²

¹ ApiFix generated \$0.5 million of revenue in 2019

² As of June 30, 2020

A Novel Surgical Option

ApiFix is a Viable Alternative to Failed Bracing and Spinal Fusion for the Treatment of Progressive Scoliosis

Exercise
Curves <25º

Brace Curves 25º 40º

ApiFix System Curves 35° - 60°

Fusion Surgery
Curves >50º

Minimally Invasive Deformity Correction (MID-C) System for Scoliosis

- Viable alternative to failed bracing and spinal fusion with motion-preserving technique
 - Self-adjusting rod and novel polyaxial joints
- Least invasive surgical solution
 - Placed posteriorly and unilaterally on the concave aspect of the curvature
 - No thoracic surgeon; no need to collapse the lung
- Removable (burns no bridges)
- Surgery time 1-2 hours; Incision size 10-15cm; Blood loss 50cc
- Post-surgery hospital stays of 1-2 days
 - Patient recovery measured in days, not months
- Low complication and revision rates
- FDA and CE Mark approved procedure backed by clinical data on 370+ patients and long-term (8 year) data

New Competitors Would Face Formidable Obstacles

"The ship has sailed."

- Product breadth
- Surgeon relationships
- Sales and distribution netw
- **Clinical education programs**
- **Pediatric brand equity**
- Reputation with pediatric orthopedic societies
- **Dynamic culture**

What Does Category Leadership Me

Surgeon relationships and clinical education

- Relationships with surgeons who use entire portfolio
- Major provider of clinical education
- Leading supporter of surgical societies
- Custom instruments

Broadest, most innova product offering

- 13 years' clinical understand
- New product pipeline
- Pediatric Market Gateway for distributed products and join product developments

- \$3.2 billion addressable global market
- Limited focused competition
- Focused, experienced distribution
- Instrument set placements drive growth

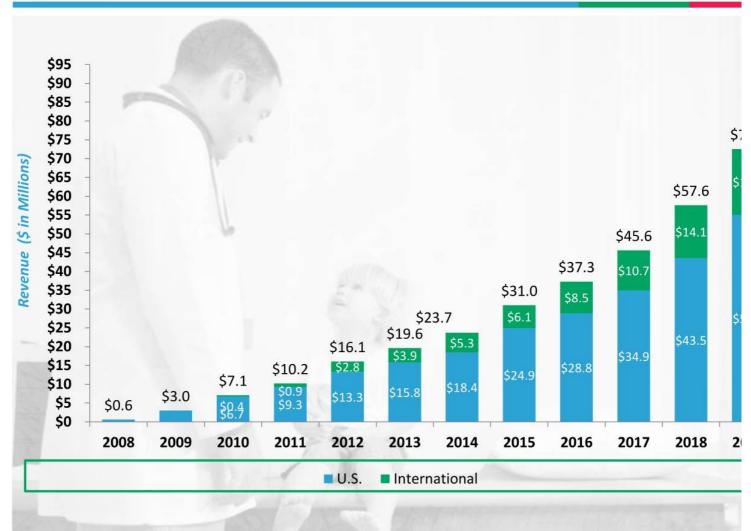

Attractive growth an margin profile

- Consistent growth since i
- 75% gross margin in FY 20
- History of efficient capita utilization

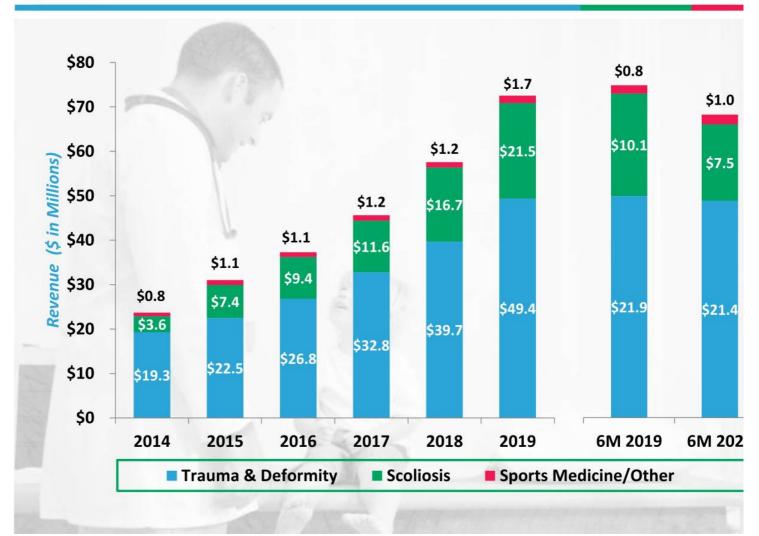

Consistent 20+% Revenue Growth Since Incept
